SLIPP & FLEWELLING.

CHASED BY BEARS.

F. N. Perkins, the well known letter carrier, is spending his vacation in Gaspereau, Quebec Co., and, according to his account, is having an exciting time. A friend of his informs the Star that he has received a letter from Mr. Perkins telling how he and his daughter started for church on their wheels on Sunday last and, on a lonely spot in the road almost ran into a couple of bears. The animals gave chase and Mr. Perkins is confident that had not he and his daughter been expert cyclists the bears would have had a good dinner at their expense.

GATES AT C. P. R. CROSSING. The people of Fairville want gates at the C. P. R. crossing. There, and with this object in view, a count is being made of the number of people and teams that daily cross the track. It is said the traffic must reach a certain figure before a railway company can be compelled to establish gates and also that in this case the C. P. R. has had count of the foot passengers and vehicles kept so as to have their own figures when the case goes before the commission.

The St. John exhibition was not an unqualified success so far as the experience of people taking the better could determine. Factors operated on all sides, with so little hindrance by the authorities as to induce people to go to the show for someone. The cost of seeing the show has steadily increased from year to year and the tourists of the city has not kept pace. The street car service was wretched beyond compare.—St. Croix Courier.

POLICE COURT.

Not a Single Arrest in the City Yesterday.

There were no arrests made in the city yesterday, and consequently his honor Police Magistrate Ritchie had an easy time this morning.

Mrs. B. Masters of Somerset street complained that Gordon Berrie of 83 Somerset street broke a window in her house, that the lad's father saw him do it and that he refuses to put in new glass. Mrs. Masters was in court this morning, but the boy was not there, as he had not been notified in consequence of a statement made to the police by Mrs. Masters, who said she did not wish to prosecute. She evidently has changed her mind, as she had a lot to say this morning.

WOMEN'S MISSION CONFERENCE.

At last night's session of the Women's Missionary Society, Miss W. Veazey, of the Y. W. C. A., gave an interesting talk on that country. Her remarks principally had reference to Tokyo and Christian education work there. The speaker believes that money spent in the evangelization of Japan is a good investment, as the Japanese make conscientious and steadfast Christians.

This morning's session opened at 2.30 o'clock with devotional services, led by Miss Veazey. The session was then turned into a conference of methods. Miss Palmer leading. Among the subjects treated were: Rest Fund, by Mrs. Wood; Study of Report, by Mrs. Williams; Mite Box, Crosses, Associated Help, etc.

This afternoon the elections to the different boards will take place and reports of committees will be made.

FLOATING THE MAY QUEEN.

The work of floating the steamer May Queen in the Grand Lake was begun yesterday morning, but it is not known yet what success is attending the operations. A word will reach the Indianapolis office some time this afternoon.

In order to float the May Queen it is necessary to pump the water out of her faster than it runs in. If the pumping gear which is being used should prove incapable of this a more powerful equipment will have to be resorted to. The water has to be removed from the hold before the leak or leaks can be located. Once the leaks are located there will be little difficulty in stopping them.

HEATING THE POLICE STATION.

The heating apparatus in the central police station has been overhauled and is now in first class condition. For some weeks past men have been at work overhauling this plant. In the building are nineteen heaters in all of which new valves have been put in. The boiler has been tested and new stops placed in position, also some of the brick work renewed.
