BRIDEGROOM STOLEN
ON WAY TO WEDDING
Millville Bride Keeps Guests Five Hours
Until Her Fiance Appears

MILLVILLE, N. J., April 17.—It leaked out today that the kidnapping of a bridegroom Saturday evening caused the postponement of a wedding for several hours and Miss Rena Dorothy Boardman, daughter of Mr. and Mrs. Frank Boardman, did not become the bride of Ralph Franklin Robbins, of Salem, until early Sunday morning. As Mr. Robbins started for his train in Salem friends captured him and held him prisoner until the last train had left.

Not to be outdone, he drove across to Gloucester and caught the last electric train. When he reached Millville at 1:08 Sunday morning, a number of the wedding guests were at the depot, the bride-to-be insisting that they wait for the last train.

Mayor Payne, an uncle of the bride, performed the ceremony. The guests had waited for the groom five hours.

**EMANCIPATION OF
GERMAN WOMEN**

BERLIN, April 17.—The outlines of a reformed system of education for Prussian women were described in the Diet today by Minister of Education Stüttgen. The reform aims, chiefly, at imagination or sentiment. The reformed high school for girls will consist of nine classes, in which higher mathematics, natural science and political economy, hitherto neglected, will be taught. After leaving the high schools the girls will enter one or two new institutions. The first of these, called lycées, are intended, principally, for those who are unlikely to have to earn their own living. They will give instruction in household duties and charitable work. The second are designed to prepare women intending to follow a profession or to enter a university. The announcement has excited much interest as clearly denoting a much needed step towards the emancipation of women in Prussia. The proposed lycées system is entirely unknown in the German educational system.

BIGGEST OF BATTLESHIPS
The Aki Launched at Kure Yard, Japan
Outclasses the Dreadnought

TOKIO, April 17.—The battleship Aki was launched today from the Kure Navy Yard in the presence of representatives of the Emperor, officers of the British cruiser Alacrity, Vice-Admiral Sir Arthur Moore and the Italian cruiser Vesuvius.

In the Aki Japan gains the distinction of having the biggest battleship, she has a displacement of 19,800 tons, a length of 492 feet and a beam of 83½ feet. Her engines, which are turbines, will be of 25,000 horse-power, and it is estimated that she will have a speed of 21½ knots. She has three funnels, against the Satsuma's two. Her armor belt is 9½ inches. She will carry four 12-inch guns, twelve 10-inch and eight 6-inch.

The Aki was designed and constructed by Japanese, the principal constructors being Rear-Admiral Kitakaga, Captain Obata and Captain Mizutani. Her keel was laid on March 15, 1906, but her construction was suspended for five months, so that the net time of her construction was only eight months.

The British battleship Dreadnought, the biggest in the British Navy, is eclipsed as to size by the Aki, as the Dreadnought's displacement is only 18,500 tons, but she carries ten 12-inch guns, and her speed is twenty-one knots.

**STREET RAILWAY PROMOTERS
GET SET-BACK IN MONCTON.**

MONCTON, April 17.—The city council tonight declined to pass a resolution in favor of a company constructing and operating a street railway in Moncton under an old charter held by the Moncton Street Railway, Heat and Power Company. Some American capitalists proposed to construct a street railway this summer and asked the city to show that they were in accord with the move and would support the project.
