Official Organ Utters Warning Against Offence to Dignity of the Fatherland.

LONDON, May 19.—When the Kaiser rattles the sabre the whole world immediately pays attention. He has several ways of doing it. Sometimes it is by sending a semi-private despatch to a foreign official, as in the case of the Kruger telegram. Again it may be an ominous phrase in a speech on one of his journeys as at the purpose. The Cologne Gazette, which everybody recognizes as a semi-official organ, yesterday devoted the whole of its first page to the article, warning all and sundry that Germany's policy is one of peace at any price. It is evident throughout the article that the cause of the writer's irritation is not connected with Germany's direct interests, but with such affairs as the Moroccan and Macedonian questions. It is evident that Germany's direct interests, but to such affairs as the Moroccan and Macedonian questions. OF CLEVELAND STRIKE**

Conference Begun at Ten O'clock This Morning

All Night Session Brought No Result—Extensive Use of Dynamite on Tracks.

CLEVELAND, O., May 20.—Continuation of the unsettled conditions in the local street railway strike for at least twenty-four hours is the result of an all night meeting of the members of the State Board of Arbitration and the officials of the Municipal St. Railway Company together with the leaders of the union. The conference adjourned shortly after three o'clock this morning without hour for resuming. No announcement was made on behalf of either side of the controversy. After a night marked by the most violent conditions since the strike was inaugurated, five days ago the police and county officers began preparations to protect the so-called non-union crews of cars and the public that had the courage to ride.

Moroccan Messenger Under German Protection Was Badly Used by French Officers

BERLIN, May 20.—The Foreign Office has received a report from Dr. Rosen, the German Minister to Morocco, regarding the alleged maltreatment of a man under German protection by French soldiers. According to the information received here the man was carrying a letter from the German consul to the commander of the body of French troops, but the soldiers maltreated him, while the officers spat upon the consul's letter. Dr. Rosen immediately lodged a complaint with the German Legation at Fez and the matter is now undergoing consideration at Berlin. Apparently the Foreign Office regards the case as one calling for diplomatic representations.

**"The Money-Lender" at the Nickel**  
Closely following the magnificent production of Macbeth, the down-east drama How The Mortgage Was Lifted, and other pronounced pictorial successes at the Nickel, comes a picture-play of deep interest entitled "The Money Lender." Commencing at noon today this heart-grIPPING story of "wild out" sowing in collegiate circles will be presented with special musical setting, and will undoubtedly add another hit to the big picture house's score. The title of the drama suggests the plot; it is one of gay whirl, civil companions, a grasping money lender and his victim. The scenic embellishments are remarkably fine and the acting superb, particularly the closing scenes in which the fond father "sings" the bill and welcomes his prodigal son home again. In the Pathé picture, Female Police, a clever satire on the American police force is made, the situations warranting untold merriment. A Delightful Dream is an Italian fantasy with colored effects. Miss Wren, the excellent mezzo-soprano, will sing The Story The Picture Blocks Told, and Mr. Maxwell will receive much applause for his rendering of the cowboy love-song, "When It's Moonlight on the Prairie, Darling array." Orchestral novelties and Chelsea fire views.

**At the Princess**  
One of the best programmes that have ever been placed before the people of St. John will be put on this afternoon at the Princess. Consented Love, a remarkable picture stands in a class by itself. A young girl is stolen from her home by the manager of a circus. She was forced against her will to take part in the performance at the different towns, and was very often whipped by the manager. She wins the love of a young man in the company, who is much a slave as herself. They are caught embracing each other by the manager's wife, who informs her husband and he attempts to whip the girl, when her lover interferes and in a struggle which ensues the manager is stabbed. The young man is arrested and the girl finds a friend in the village priest, who on hearing her story communicates with her parents, who are overjoyed at finding their daughter. They make haste to the village where she is under the priest's protection, and on the day of their arrival her lover is proven innocent of the charge against him and they are married.

**At the Unique**  
The management of the Unique wish to call attention to the excellent programme they are putting on this afternoon. Three brand new pictures, none of them ever shown in St. John before, Mandrel's Feast, The Mandrel Brothers are smugglers and are just starting on one of their perilous expeditions when an enemy of theirs guides the customs officers to their retreat. The majority of the smugglers are captured, but two of the most powerful make their escape. In travelling through the woods they come upon the former ally, murder him. They then join a gang of cut throats and soon after one of them becomes their chief. He procures an invitation under a false name to the house of the chief of police. And when they are all conversing rises and points his pistols at the assembly and begs the ladies for their jewelry, which they gladly hand over. He at once takes his leave and the police give chase and succeed in killing the whole of the gang except the chief and one other. He is, however, taken a little later by the son of a man he killed. The brigand chief is a man he killed.

**At the Palace**

**FISHING SMACK BURNED;  
BOUND FOR NOVA SCOTIA**

VINAL HAVEN, Me., May 19.—The Dexter smack Electric Light, owned in Boston and bound for Nova Scotia, was burned at her wharf today and sank, the accident being caused by the explosion of gasoline while the engineer was filling a tank.

Captain Webber, of Friendship, who commanded the vessel, rushed aboard the burning craft to cast off the lines with the intention of scuttling in deeper water, but was badly burned and compelled to abandon the plan. The smack is a total loss and is uninsured.
