FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invisorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every lody, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Hearthurn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Docesle, Flatulency, Loss of Appatite, Januaice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

When once tried, its superiority over every other medicine of its kind is too apparent to escare observation, and where its virtues are known, the public no longer bearate what antidate to employ for the distressing and damprous reflections of the pulmonary organs that are incident to our climate.
