The Market Committee had not dealt with the question of recommending the reinstatement of Mr. Dunham, but it is understood that they were not very favorable to his reinstatement.

Why not take this op-portunity during the holidays of having the children's eyes examined?

If your child has been backward in his studies, it may be that he is handicapped by poor sight, or by defects in his eyes which make study a

hardship. Study should be a pleasure—if not there is something wrong. Better find out if his eyes are at fault.

Early in the morning is the best time to have the eyes examined.
