MY FUNNIEST STORY
When Reuben Sought Knowledge

BY JANE GREY.

JANE GREY.

My best story isn't a story at all, it's an actual occurrence. I was getting a manure the other day, when the door of the establishment opened very slowly, and in came a real comic supplement type of "It." He watched the proceeding for a few minutes, and the manure, who is a very dignified woman, after greeting him, waited for him to announce his errand. When he realized that it was "up to him" he began: "I be'ant from Chicago," he announced. "That was no news to us. We waited for him to continue. He did. "I seen yer sign on the door," he drawled, "and thought I'd come in and see how yew was fixed." "I'm afraid I don't understand," said the manure. "Do you mean you want a treatment?" The fellow looked scared and backed toward the door. "Gol darn, no," he shouted, "they ain't nothin' the matter with me! You folks in Chicago has such new-fangled names for everything, I jes made up my mind I'd find out fer myself what kind of a place yew was runnin' in here."

HYDRO-ELECTRIC

BILL IN COMMITTEE

Proposal is Considerably Amended and Discussion on Spirited—Sayre Company Objects to Hartland Power Bill

Fredericton, March 26.—All other committees suspended business this morning for the meeting of the hydro-electric committee. The committee first met in private, and agreed upon their report on the New Brunswick Hydro-Electric Company's bill, which, as intimated, has been greatly amended and will be passed in a vastly different condition than it was presented. The bill will be recommended to the House subject to a number of modifications, including one which practically exempts the St. George Pulp and Paper Company and other industries on the lower end of the river from having their present supply of power diminished. Provision is also made that at least one-fifth of the power shall be reserved for Charles County, subject to conditions to be agreed upon between the proposed purchasers and the company, or if they fail to agree, to be settled by the Public Utilities Commission. The company will have rights to expropriate only on the approval of the Lieutenant Governor in council.

The committee afterwards met in the assembly chamber, and there the Hartland Electric Power Company's bill was taken up. The proceedings were lively at times, some of the speakers passing the lie across the chamber on at least one occasion. Messrs. J. C. Hartley and M. N. Cockburn appeared for the promoters; Messrs. R. B. Hanson and D. King Hazen appeared for E. E. Sayre of St. John; M. L. Hayward for the riparian owners on the Beauséjour river, which it is proposed to dam. F. R. Taylor appeared for the C. P. R., and H. F. Puddington for the New Brunswick Railway Land Company.

Mr. Hazen said that while the company presented sketches showing the profile of flowage and a suggestive plan of a dam and mill, no definite information was given. A report should be obtained from a competent hydraulic engineer.

Mr. Taylor argued along the same lines. Mr. Hartley contended that the rights of all parties were amply protected from the fact that all plans and specifications had first to be approved by the governor in council.

Mr. Taylor and Mr. Hanson stated that when the project was before the committee last year the committee had laid down the principle that the bill would not be passed until the company produced to the committee plans and specifications of the proposed works. Mr. Hartley said that the company now had before the committee all the plans and data necessary to give information regarding the proposed dam. They could not be expected to produce actual working plans before they had authority to go on with the work.

Mr. Daggett, of Boston, hydraulic engineer for the company, said that it was impossible to give accurate data regarding the actual horse power to be developed without the records of the flow of streams covering a term of years. An approximate estimate was 300 horse power constant for 24 hours. An estimate of the cost of the dam was \$30,000 to \$35,000.

Mr. Wilson said that the building of a dam 40 feet high should be taken into consideration, particularly when it affects a railway bridge and property owned by other people. Could the company afford to build a dam

DANGEROUS MALADY

ATTACKS THE HORSES

Cases of Glanders Discovered at Waterborough, First in Province—Curious Coin Passed in Change.

Waterborough, Mar. 26.—The farmers in this section are very much alarmed since two valuable horses belonging to Wm. Kelley, developed glanders and were ordered shot by Dr. McWade, veterinary surgeon, who under the supervision of the Dominion government, is examining the horses in this section for symptoms of the disease.

George Rankine, Chipman, Q. C., had two horses shot on Saturday by order of the Dominion veterinary surgeon who being summoned to examine the horses found them infected with glanders. Dr. McWade told your correspondent that these were the first cases of glanders that he had ever known in New Brunswick, and speaking more definitely, he said, "I am afraid you will find that a number of horses in Queens county are infected with it."

When Slocum is moving the contents of his store which he recently sold to Dr. C. H. Mott, to James, Q. C., where he will start a larger general store which he will open for trade at an early date.

Your correspondent has in his possession a counterfeit American dime, and the strange feature about it is that it is brass and was at one time silver plated so as to resemble the genuine American coin. An old gentleman got into change and did not know where it came from, so he handed it over to The Standard representative.

The petitions against the bill, he felt, were signed by people who were under the influence of Mr. Sayre.

Mr. Hazen said that if a dam were not properly constructed, land would be destroyed and bridges menaced. The project would be detrimental to the Sayre industry. No information had been given by the promoters as to the water power available.

Mr. Hayward stated the objection of the riparian land owners against the proposed legislation and Mr. Puddington stated the objection of the New Brunswick Railway Company. The committee adjourned until 2:15 p. m.

The Difference. | Mrs. Brown—Did you see that talking doll that they wind up at the store? Acts almost like a human being, doesn't it? No, it doesn't. You never heard a woman stop talking because you didn't wind her up!—Yonkers Statesman.

Nowadays. | Pa, what's a playwright? A man who writes stuff to go with the scenery, my son.
