water mark were disregarded. The obstruction upon which the British vessels went aground was not indicated upon them at all, being from thirty to thirty-two feet below low water mark.

There is one paragraph in the anual reports of the Hydrographer of the navy that must have particular interest for seamenthat in which is recorded the recently discovered perils. In 1910 as many as 378 rocks and shoals dangerous to navigation were reported and in the previous year no less than 497. The significance of these figures is not lessened by the explanatory note that in 1910 there were 16 and in the previous year 14 rocks and shoals discovered by vessels striking on them.

Students' Convention Sees a

that the labor disputes of the present time were indications of the approaching millennium, for they showed that mankind was becoming illumined by the light of the Lord's kingdom, and in demanding its rights were endeavoring to approach its primeval perfect condition.

Over two hundred delegates attended yesterday's sessions, including representatives from all over northern America, from Brooklyn, represented by Mr. A. M. Saphore, the chairman, to Spokane, Washington.

A most important ceremony took place yesterday morning when no less than sixty-four men and women were immersed in the icy waters of Lake Ontario, after an address by Pastor Russell, who, after earnestly exhorting the assembly, invited those who cared to openly profess their faith to come forward and be immersed. Before the baptism the candidates were requested to sit down and consider the cost of their step. None drew back, and the ceremony was performed by Mr. G. E. Fiegeher.

The conference concluded yesterday evening with a series of short discourses from nine brethren and a love feast.

MONEY RAISED QUICKLY AT BEULAH CAMP

Thursday, July 20.

At the closing business meeting of the Reformed Baptist Alliance at Beulah Campit was voted that the camp meeting next year should begin on the Tuesday following the first Sunday in July and continue thirteen days. The executive of the alliance was empowered to take up the matter of letting the camp grounds to other denominations to hold their yearly meetings. John F. Bullock of St. John, gave an account of his work on the grounds denominations to hold their yearly meetings. John F. Bullock of St. John, gave an account of his work on the grounds during the year, and by a unanimous vote on the part of those present, he was thanked for his gift to the alliance of a beautiful antiseptic drinking fountain of his own invention. Mrs. Joseph Bullock submitted a report of money received on the debt during the year on her offer of dollar for dollar up to \$500. There was still a shortage of about \$100, and this was taken up by the sisters of the alliance and more than the amount quickly raised, thus leaving something for a start on the second thousand for another year.

A resolution was passed that the sisters of the different churches bring the matter of the debt before their churches during the year and appoint collectors. During the past year nearly \$4,000 had been raised. The meeting closed with prayer by the secretary, Rev. W. C. Wignis.

The camp meeting services are well lattended. Among those who arrived at the camp this week are Dr. J. E. Jewett and Mrs. Jewett, of Woodstock, who have been touring in their automobile through Maine, New Brunswick, Massachusetts and Rhods Island. They were three weeks on the trip. Dr. Walker is preaching every morning and evening, and yesterday Rev. Mr. PeLong, of Salem (Mass.), preached.
