#### A Nice Way to Cook Chickens.

Cut the chicken up, put it in a pan, and cover it over with water, let it stew as usual, and when done, make a thickening of cream and flour, adding a piece of butter, and pepper and salt; have made and baked a pair of short cakes, made as for pie-crust, and roll thin, and cut in small squares. This is much better than chicken pie, and more simple to make. The crusts should be laid on a dish, and the chicken gravy put over, while both are hot.
