Ottawa. Oct. 4th. 1935.

Sir:-

With reference to your letter of the 23rd. ult. regarding wood supply for the Indians of the Cambridge Reserve. I have to state that there still remains a sufficient quantity on the wood lot purchased last year, to meet the requirements of these Indians.

The Department does not propose to secure additional wood land, nor authorise the purchase of fuel wood, until it is shown that clean cutting of the present wood lot, has removed all the available fuel timber.

Yours very truly,

T. R. L. MacInnes
Actg. Secretary.
