Every married man who joins the expeditionary forces has to set aside \$15 a month for his wife, or she does not get any separation allowance from the government. In the artillery the officers are insisting that the married men set aside \$15 a month for their wives when they enlist. After that they still have about \$12 a month entirely for spending money, because food and clothing are all furnished them.

"STUDEBAKER"

The one big argument for a Studebaker car is the fact that it is a Studebaker car.

That includes everything else—The Studebaker name is back of it—The Studebaker reputation is stamped upon it—From purely selfish motives Studebaker quality must be built into it.
