See Advertisement.

ANOTHER BANK DEFAUCATION.

ON Friday last, the Deposit Ledger Clerk of the Hamilton branch of the Bank of Montreal, by means of checks, accepted by himself, obtained money from the Bank of Commerce to the amount of \$4,300, and driving out to Stony Creek, took the cars there, and succeeded in reaching the United States side of Suspension Bridge. The defalcation, however, had been at once discovered, and the absconder was followed by Mr. Strathy, of the Bank of Montreal, overtaken, and finally induced to restore the money he had taken. He, of course, is at large, but the Bank was fortunate in so quickly recovering what might have been a total loss.

THE GOLD PANIC IN NEW YORK.

THE excitement at the New York Gold Board on last Friday was such as to baffle description, and the fluctuations in the price of gold more rapid than were known at any time during the war, except, perhaps, after the passage of the Bill prohibiting speculation and its quick repeal. A strong "Ring" had, by a series of operations, succeeded in "cornering" the market, and in a very brief time gold advanced from 150 to 162½, the operators for a rise making, it is stated, some \$11,000,000. To prevent a further advance the United States Government ordered a sale of \$4,000,000 of gold, and this had the effect of producing a reaction, and brought gold

WHOLESALE FUR MERCHANTS.

BUFFALO ROBES.

MOCASSINS specially manufactured for the **LUMBER TRADE.**

We have introduced into Canada the most approved machinery for Dressing and Dyeing purposes, and now dress and dye on our own premises most of the leading goods heretofore imported from Europe, thereby effecting a large saving, and on that account can offer superior inducements to our customers.

TERMS LIBERAL.

down to 132, in the neighbourhood of which figure it has remained. The losses of the "bears," of course, corresponded with the gains of the "bulls," and a number of firms found themselves unable to meet their engagements. There has been scarcely any business done since Friday, partly in consequence of extreme stringency of the money market following the operations of the Sub-Treasury in selling gold and buying bonds, and partly owing to the general want of confidence caused by the numerous failures.

INCREASING WEALTH OF CANADA.

WE have had occasion several times recently to point out the rapid accumulation of deposits in the hands of our banks during the past few years, and this, too, during a period when the establishment of new banks caused a considerable increase in the amount of money invested in bank stocks. Another indication of the growth of the money wealth of the country is to be found in the steady increase of the deposits in the Post Office Savings Bank. They have now reached the sum of \$300,163, the increase during the month of August having been \$54,659. It might have been thought that the superior security and advantages offered by Government to small depositors would have had the effect of attracting them at the expense of the banks; but although these institutions might possibly have obtained some portion of this money in addition to what they have, they certainly have not been losers, as far as their deposit accounts are concerned, and it thus becomes evident that the aggregate savings of the country are increasing, and that, too, much more rapidly than could have been believed at all possible, in view of the persistent depreciation of the resources of the Dominion by those who desired openly or secretly to bring about its annexation to the already overgrown Republic of the United States.

POST OFFICE SAVINGS BANK.

STATEMENT of the Post Office Savings Banks account, for the month of August, 1893, published in accordance with the Act 31 Vic., cap. 10, sec. 3.

In hands of the Rec. Gen. as per last statement (July 31st).....	\$	905,604 03
