

A STRANGE STORY.

There lately died in a country house in Ohio a man with a record so strange that it should be preserved in history. He was recorded under the name of Alfred Brit, and his age was recorded as 26. He was partially paralyzed, the result of a bullet wound in the back, and although he was an inmate of the house for a year or more, it was not until a few days before his death that he related any facts about himself.

Brit was born in Boston, and when three or four days old was put into a basket with a supply of clothes and \$100 in money and left on the doorstep of a humble mechanic named Alexander Gray. It was never known how many years he lived, but it is not until a few days before his death that he related any facts about himself.

lated, and then went to the parlor of his own second. When told that he might live a few months, but could never get well, he expressed his thankfulness that such was his case. When his last days were passed he told his story, and after that death wish he had been haunted and hunted until he felt that the grave alone would bring him manfully.

Many of the medicines besides the kind used by Dr. Gray and the first kind is the kind which you have seen in a spoon. It is called Pills and it is the hardest of the whole because it is so hard to go down but it does not make any difference which kind you use.
