# "KIPPER KAPERS" THURSDAY

Shown here are several of the hundreds of Haligonians who flocked to the Dal Gym to see the WUSC Treasure Van last week. Spokesmen termed the visit of the Treasure Van as most successful. (Photo by Thomas.)

## Haligonians Flock To Gym Treasure Van Great Success

The WUSC Indian Sale, held at the gym last week, turned out to be a great success. The sale has become an annual affair at Dal, but this year it was held under the joint sponsorship of Dal and Saint Mary's University.

Pat Walsh, the Dal WUSC Chairman, was in charge of arrangements on this campus, while Harold Kane was the chairman for Saint Mary's. Miss Patricia Paris and Claude Michelson were in charge of the Treasure Van.

Among the many attractions at the well-attended sale, were the lovely Mexican handicrafts. Each year, WUSC adds the goods of a different country to the Van and this year Mexico was chosen.

The proceeds are sent to the WUS International Relief Society which provides scholarships and aid to student hostels and medical centers.

## Large Crowd At Jamboree

More than two hundred and fifty students turned out last Friday night for the annual Engineers' Hayloft Jamboree.

Under the able leadership of Dave Bewley, the Dance Committee decorated the gym with balloons, and Alf Johnson called the sets while Hughie McCabe and his "Eastern Five" supplied the western swing.

During the intermission, the crowd was entertained by the newly formed Engineers' Orchestra emceed by Doug Lennox. The orchestra included Forbes Thompson and George Godson on guitar, Bill Evelyn on drums, and Bob Weld on accordion. The chaperones for the evening were Mr. and Mrs. Marshall.

## Conservatives Hear Donald Fleming

The Arts Building was the scene last week of an enthusiastic meeting of the Dalhousie Progressive Conservative Club. Many students assembled to hear Donald Fleming, M.P., for Toronto Eglinton, who has been in the Maritimes this past week.

## Pop Machine In Residence?

In the closing meetings of last year the Students' Council proposed to University officials and to Mr. Atwood that a soft drink machine be placed in the men's residence.

The location suggested for the machine was the East Common Room where it would be of great benefit in helping to reduce the line-ups at the canteen counter. It appears that both the University officials and Mr. Atwood agreed to the proposal and that Mr. Atwood would make the necessary arrangements to have the machine so located for a trial period of two weeks.

The Pepsi-Cola Company officials last year expressed their willingness to install this machine, but at that time they did not have the specific type of machine required. It was hoped that they soon would install it. The type of machine referred to, it is believed, would be a cup dispensing one, allowing the buyer a choice of orange, lime or pepsi-cola soft drinks.

The Pepsi-Cola Company, we presume, is still waiting to hear from Dalhousie University and Mr. Atwood has been given the green light to go ahead with the project.

It is hoped, therefore, that the machine will soon come rumbolling up to the residence and find a new home among Dalhousians. This new home, however, is only for a trial period of two weeks, during which, if paper cups are scattered everywhere and the machine is tampered with in any way whatsoever, the University officials will deem it necessary to have the machine removed and again the line-ups will form at the canteen door. So if our machine comes, let's try to keep it.

## Blood Flows Next Tuesday

The Dal Blood Drive Committee, headed by Patty MacLeod, has been hard at work for the past month in preparation for the Blood Drive which will be held starting next Tuesday, November 20.

These trophies will be available for competition between faculties, and between fraternities. Students under eighteen years of age will

## DGDS Revue Has Limey Flavour

By ALAN FLEMMING

This Thursday, Friday and Saturday will find the Dal gym a centre of activity as the Dalhousie Glee and Dramatic Society presents its Annual Revue.

During past years, each revue has been based on a definite theme. This year's show will have a British flavour and has been accordingly named "Kipper Kapers."

The Glee Club has been hard at work on the show since classes began. The services of Dale Jackson, a Mount A grad in music, were obtained as chorus director, and he has shaped the group into fine form.

Soloists appearing alone and with choral accompaniment will be Neva Eisner, Jane Griffen and John Phillips. Novelty numbers will be done by Julia Gosling, Marty Fransworth and John Key-ston.

Several skits have been written by Simon Gray and Graeme Nicholson. These skits will satirize the typical Englishman and his way of life. A topical reference to the situation in the Middle East will also be made.

Humorous bits will be done at different intervals during the revue by Carl Perry.

A cultural approach is being made by a small string ensemble. They will play some of the better known classics of the day.

A dancing chorus has also been arranged. Soloists with this group will be Carol Ann Egan and Janice Merritt.

Don Lawrence is acting as the stage manager for the DGDS this year.

"Kipper Kapers" promises to be a fine evening of entertainment. Be sure to attend. Curtain time for each performance will be at 8:30.

## Graduate Editors Seek Co-operation

Due to lateness in the plans of the "Pharos Year Book" the graduate editors request your full co-operation this term. All graduates having their photos taken in Halifax must take their sitting before the Christmas holidays.

To make your appointment with the photographer, please contact the graduate editor in charge of your faculty at the following phone numbers:

Pam Campbell: 2-6716, Law, Engineering, Education.

Janet MacLachlan: 2-2114, Arts and Science, Commerce and Graduate Studies.

Anna Cooke: 3-8801, Medicine, Pharmacy, Dentistry, Public Health, Teaching and Supervision.

There will be no appointment desk in the respective buildings because of the lack of time for arrangements.

Take with you \$5.00 for your sitting.

Do not forget your write-up, which must be in by February 1, 1957. Your full co-operation will be appreciated.

The Graduate Editors.

not be considered when the percentages are calculated. However, all students who are not able to donate their blood for medical reasons or because they are under age are urged to go to the clinic and be rejected.

More details of the Blood Drive will be carried in this Friday's issue of the Gazette.

## Plan Dent Ball Frat Mooted

Dental student activities have started off with a large measure of enthusiasm being shown in every phase of the Society's activities. Socially, plans are being made for the annual Dent Ball, to be held at the Lord Nelson Hotel on December 7. Dancing will be to Don Warner's Orchestra.

A topic which has been attracting much attention for the past few years, that is the establishment of a Dental fraternity, came up again at the last Society meeting. Such a fraternity would be local in character rather than a member of a national group. A full-scale investigation into the financial aspect was presented and, after a lively discussion, the matter was tabled for the moment.

Also at the meeting, a design and form were chosen for a new Dental ring. The design which was accepted consists of a gold Dental insignia against a background of black enamel of rectangular form.

## Acadia Students' Vote Favours Rejoining NFCUS

Students at Acadia University in Wolfville voted last Wednesday to rejoin the National Federation of Canadian University Students. The valley university withdrew from NFCUS following the 1954 national conference.

The vote, 319 in favour and 240 against, was the climax to two weeks of intensive discussion of the Federation. Don MacPherson, president of the Acadia Students'

Union, lent his support to the efforts to re-enter NFCUS.

Dave Peel, the Atlantic Regional President of the Federation, and Lew Matheson, another Dal student who is an Acadia graduate, spoke to the student body last week. Many council members worked to educate the campus about the Federation following their visit, and a great deal of enthusiasm was aroused.

NFCUS used a new approach at Acadia, one of explaining its

purposes and functions to the students as a whole without offering them a series of material benefits. A pamphlet, prepared at Dalhousie, was used to tell the Acadia students of the Federation.

Mel Campbell was chairman of the committee appointed to tell Acadia about NFCUS, and the vote was largely due to his efforts. The Acadia student council is expected to formally apply for membership for the university's 735 students in the near future.

## Language Lab New Feature At Dalhousie

Of interest to all Dalhousie students, and especially those specializing in modern languages, is the new Language Laboratory which is situated in the Arts Building. Since its opening at the beginning of the fall term, the Laboratory, a novelty in this area, has been in constant use.

On November 6, Professor Paul Chavy and twenty of his students gave a special demonstration for the benefit of newswriters and broadcasters. A portion of the demonstration was televised and one of the students, Moira Kerr, was interviewed.

The Laboratory consists of a room equipped with four tape recorders and approximately twenty-five sets of headphones by which students may hear a foreign language pronounced by a qualified speaker or may hear their own efforts played back for correction. The laboratory, on a trial basis this year, is equipped for instruction in French 1, 2, 3 and 12, as well as in German and Spanish.

The students, who are asked to attend the sessions twice weekly, find that the scheme is of great value in complimenting classroom work. The recording technique, which was devised in World War II as a method for teaching languages to service men, has been adopted by many schools and universities worth of the experiment.
