TRATIVE ORDER A.39/1.

DAILY DIARY

OF

(UNIT OR FORMATION) No. 5 Initial Training School
Belleville, Ontario.

PLACE	DATE	TIME	SUMMARY OF EVENTS	REFERENCE TO APPENDICES
No.5 Initial Training School Belleville, Ontario.	Thursday Aug.21st/41		No.1 and No.2 Link Trainer rooms were completed. On advice of Chief Link Officer, the Spencer Turbine motors in two instances were removed from the base of the Trainers and by using a found galvanized piece of piping, thereby losing the noise which in other instances had been found very trying to Instructors. Further, the flexible motor cables were run under the floor, which adds to the appearance of the room and facilitates cleaning. Lighting of the Link Trainer rooms is of an emergency nature at present, nor are the rooms properly ventilated. Improvements will be made as conditions permit.	
	Friday Aug.22nd/41		A series of tests was given to Entry #33, covering Mathematics, Armament, Signals and Sanitation & Health. Results most satisfying.	
	Saturday Aug.23rd/41		All adjustments to Link Trainers having been made, training was commenced today. It was realized at the outstart, that due to the loss time, it would be necessary for Instructors to work many hours overtime. Through cooperation of staffs, Instructors, Maintenance and clerical personnel, it is anticipated that more than half of the Trainees will receive full instruction, test and assessment. Instructors at this School are carefully following instruction, scoring, assessment and procedure generally, as carried on at #1 I.T.S. at Eggington. The school auditorium having been finally cleared of Ontario Government furniture, it was made available for Church Services. Roman Catholic and Protestant church services were held.	
	Sunday Aug.24th/41
