

## PREFATORY NOTE.

THE "INTRODUCTORY GEOGRAPHY" is designed to be an introduction to the "INTERMEDIATE." It has been prepared to meet the wants of young children who have received their preliminary oral introduction to the study of Geography, but are unable, with profit, to take up a more advanced textbook. Although it is thus of an elementary character, care has been taken to bring it up-to-date, as well as to ensure accuracy, and it is believed that pupils will have nothing to unlearn when a more advanced work is placed in their hands.
