SIMPLE DISEASE
SIMPLE REMEDY

Cockburn Island Lady Tells How She Cured Her Stomach Troubles by Using Dodd's Dyspepsia Tablets.

How many people are simply "troubled with their stomachs." They hardly recognize their complaint under the pretentious title of Dyspepsia, but they do know beyond a doubt that they have hours of discomfort and that the stomach is the cause. To those the experience of Mrs. B. S. Rombough, Cockburn Island, Ont. She says:

"I was troubled terribly with my stomach. I got some of Dodd's Dyspepsia Tablets and they did me good. I think they are a good Tablet, and I would recommend them to all who are troubled with their stomachs."

Now that is a simple statement regarding a simple remedy for a simple trouble. It simply tells all who have stomach troubles that they can find relief in Dodd's Dyspepsia Tablets.

Nothing Left.
 "I have had lots of friends who were guilty of mutilating books that had borrowed from me, but my latest experience was the most novel of all."
 "What was it?"
 "I lent Mrs. Blanks my dictionary a few days ago, and yesterday she returned it without a word!"

DEAFNESS CANNOT BE CURED.
 By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; once cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused or not) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Misguided Friend.
 De Chapple - If there's any one nuisance I hate more than another it's a fellow who is always going around introducing people. There's Goodheart, for instance. Scuttown - What's the best being doing? De Chapple - The best! The other day he introduced me to a man I owed money to, and I'd been owing it so long he'd forgotten all about me. Now I'll have to pay up or be sued. - London Telegraph.

The Ancients and Electricity.
 Although little was known of electricity until comparatively modern times, it has been understood since six or seven hundred B. C. that certain substances when rubbed show attraction and repulsion for various light materials. Among these is amber; so, in the latter part of the sixteenth century, when electricity was more definitely known, its name was taken from the Greek word for amber.

A SUCCESSFUL HORSEMAN
 Never allows his horse to suffer from any ailment. Nervilline, which is noted for curing stiffness, rheumatism, swellings and strains. Nervilline is just as good inside as outside. For cramps, colic, and internal pain it's a perfect marvel. In the good riding stables Nervilline is always used, because it makes better horses, and smaller veterinary bills. Twenty-five cents buys a large bottle of Nervilline. Try it.

No Choice.

WOMAN'S WORLD

MRS. FREDERIC SCHOFF.
 The Able President of the National Congress of Mothers.

Mrs. Frederic Schoff of Philadelphia, President of the National Congress of Mothers, is one of the philanthropists of this country whose fame as a champion of unfortunate children will live long after she has gone to her eternal reward. Mrs. Schoff was one of the pioneers in the movement for a mothers' congress and has always been active in the work of the organization. For many years she has been conspicuous in societies that have for their object the betterment of the laws that relate to the care of children. The juvenile court law that was passed in Pennsylvania

Three years ago was placed on the statute books largely through her efforts, and its result has been to remove children entirely from appearance in criminal courts.

Mrs. Schoff has compiled a book of the laws of every state in the Union concerning dependent and delinquent children and in many other ways, aided by her wealth, has shown her devotion to the cause so dear to her heart.

Mrs. Schoff is also deeply interested in the welfare of her sex and is a famous organization woman. She is a member of the Century Club of Philadelphia, one of the largest and most influential clubs of women in the country. She was chairman of a committee whose efforts resulted in raising the salaries of the public school teachers of her city.

Mrs. Schoff has a beautiful home in Philadelphia and has seven children of her own, to whom she is devoted.

Touches Which Count.
 The perfect hostess believes in herself and her power to give pleasure to her guests. She arranges her rooms to artfully conceal shortcomings, furnishing up the furniture with a polish and making cleanliness speak for itself. Windows are clear, draperies are spotless, and care shows in every part of the abode. "I have been in the simplest kinds of homes, where I felt like exclaiming, 'How charming!' and I have gone to mansions where I found not an atom of comfort, though it was teeming with priceless articles. I can call to mind a little house occupied by the vicar of a big, imposing church, in whose yard it was plunged, where millonaires' daughters delighted to pour tea when the vicar's wife threw open her doors to the parish, says the Philadelphia Bulletin.

It was wonderfully simple and pretty, with its matting and rugs, its short muslin window curtains and old fashioned furniture, such as can be bought for a song in secondhand stores - not valuable mahogany, but stained woods in odd shapes and full of comfort. There were always flowers growing in that house - not many, but the common kinds, suited to the seasons and giving touches of color and sweetness to the place. Nobody stopped to ask how much money had been spent on the tiny house - the vicar's salary was small and his family large, his home pretty, his wife clever. And he was a gentleman! What more was needed?"

The Children's Toys.
 One of the most perplexing problems with which the order loving mother has to contend is to decide where to put the children's toys. If placed in the nursery closet they keep the floor in an unsightly litter, and the dust gathers quickly under them.

One of the most convenient devices is a box chest seven feet in length, three feet wide and three feet deep. To this is a big top. The box is covered with a deep red brocade, and on the lid is fitted and securely fastened a hair mattress, also covered with brocade. Into this thoroughly ornamental piece of furniture the toys may be stored every night, it being the children's duty to pick off everything from the floor and put it away in a neat and orderly manner.

"They become accustomed to this task and perform it with perfect cheerfulness and with a delightfully pleasant conviction that they are helping mamma. By the time their supply is brought to the nursery not a toy is to be discovered on the floor and the box chest is closed."

Upon this same couch are a number of pillows of bright cretonnes and celins and a folded afghan, and here the mother often takes a pussy nap after tucking in the babies.

Feeding Beds.
 The strange statement has been made that there are people in the world who buy feeding beds because they ill-

them, and who, being willing to pay large prices for them, enjoy them as articles of household adornment. There does not seem any reason for such a condition of affairs, and when we are further told of a house with many large bedrooms containing only folding beds one can but rub one's eyes and ask what next? The folding bed is an article of utility, but it is difficult to view it as an article of ornament. Its proper place, and its only place, is in a small room where space cannot be had for an open bed. It is decidedly insanitary, because it is generally kept closed during the day. Some people would have us believe it is dangerous because it has been known to fold up of itself and embrace the sleeper with sometimes fatal conclusions. It is seldom beautiful, even though it may be a handsome article of furniture, for it generally aspires to be something which it is not. A handsomely carved chest or wardrobe, if one must have a heavy piece of carved furniture, would be more logical and more beautiful - Scientific American.

THAT PALE, TIRED GIRL.
 She is in society, in business, at home, everywhere you see her, but always worn and fatigued. She has not heard of Ferrero's or she would be perfectly well. How quickly it strengthens - what an appetite it gives - what a glow it brings to pallid cheeks! The nutrient contained in Ferrero's puts strength into any body. Laughing eyes, rosy lips, and bright, quick movements all tell of the vitality Ferrero's produces. Thousands of creative, happy women use Ferrero's - why not you? A box of fifty chocolate coated tablets costs fifty cents at any drug store.

If riches came at our call how many of us would display any energy in the direction of work!

Nature has just one pigment on her palette with which she produces all the marvellous tints of beauty, and that one pigment is the blood. The shell-like pink beneath the finger nails, the delicate rose of the cheek, the cherry ripeness of the lips, the iridescent brilliance of the eyes are all produced by the blood. Just as the permanence of a beautiful painting will depend upon the purity of the colors with which it is painted, so the permanence of beauty depends on the purity of the blood. Paint, powder and cosmetics will not avail to preserve beauty. Beauty begins in the blood. Dr. Pierce's Golden Medical Discovery is a true beautifier, because it provides for nature that pure blood with which alone she can paint. The use of this medicine will cleanse the skin, heighten the complexion, brighten the eyes, and give to face and form that radiance of health which is the greatest charm of beauty. Dr. Pierce's Pleasant Pellets are very effective in ridding the system of clogging residuum, which accumulates with constipated habits.

LEARN DRESSMAKING
IN TWO WEEKS

I will be at the Garner Hotel, Chatham, on Saturday, July 22nd, between 9 and 6 o'clock, to show how dressmaking can be taught in two weeks. Why spend from six to nine months learning dressmaking in a shop, and then not know anything about cutting, when I teach you everything from measuring to finish in the making of ladies' and children's garments in two weeks. I have taught over 700 girls in this way within the past three years, and all were more than satisfied. If you are the wife or daughter of a farmer, mechanic, laborer, merchant or millinaire, you should learn Dressmaking. No accomplishment you can acquire will prove of such every-day, life-long value to you as a practical knowledge of Dressmaking. And if you have this knowledge you can, by saving dressmaker's bills, be able to dress much better with less money, than you probably do now. I teach you how to put together, not only the lining, but all the other goods, in coats, skirts, waists, wrappers, sleeves, and you are losing nothing by trying, for if you are not satisfied at the end of the term, then there will be no charge. School teachers, college girls and everybody who are having your holidays now, do not fail to take advantage of this splendid opportunity. You may never get another like it.

Charge for full course is \$10, when you are through, if satisfied, including one of the most perfect fitting 1905, one that can teach French and English, holding first or second class certificate, and able to speak French fairly well - an experienced teacher. Apply, giving references, and stating salary required. Address, Housekeeper, care of the Planet, or address Isadora Lafate, Chatham P. O.
