### CITY SUED

Writ Issued on Mayor McKeough in Connection with Old Account

Interesting Case May be Investigated—A Claim for \$400 is Fyled.

This morning Mayor McKeough was served with a writ on the corporation issued by the County Court of York. The writ is issued by John W. Thompson, of the Thompson Electric Co., plaintiff, on the city of Chatham, defendant, and claims \$400 balance of contract price of electric light plant installed in 1897. Holman, Dayton & Slaght are plaintiff's solicitors, while his worship turned the writ over to the city solicitor, M. Wilson, K. C., who will look into the same.

The story of the origin of this matter is said to be an interesting one and is likely to be thoroughly gone into if the case goes on. The negotiations are said to have been conducted by the late Geo. C. Rankin with the city through the late Wm. Douglas, K. C., city solicitor, and one Henry Smythe, the then mayor.

### RELIANCE IN A WALKAWAY

Yankee Boat Had Things All Her Own Way in To-Day's Race.

Shamrock Made Momentary Spurt in Beating, But Without Avail.

New York, August 27.—The actual starting time, unofficial; Reliance, 11.02.58; Shamrock, 11.04.05. The start of both boats for positions was close, and neither crossed before the handicap gun was fired, so that the time for each was 11.02. Reliance crossed first, with Shamrock following a minute later.

New York, Aug. 27.—In spite of the light air and the prospects of the yachts being unable to finish within the time limit, the regatta committee fired the preparatory gun at 10.45. At that time both yachts were close together on the leeward side of the line, sailing about with jib topsails set in order to maneuver more quickly.

In the preliminary work Reliance seemed to sail about with more life than the Shamrock, although neither boat maneuvered very fast.

Six minutes before the time set for the start, the wind had increased to about five miles an hour and the fight for position became brisk.

The fight for position at the start was very keen and was entirely in favor of the American boat. Four minutes before the starting gun was fired, Shamrock, being at a further distance to the south of the line, the boat headed back to the line. Reliance held away for about a minute and then started after her.

The great sail spread of Reliance enabled Captain Barr to completely blanket Shamrock and from this position Captain Wringe was able to extricate his boat. Captain Wringe, however, was able to prevent Reliance getting down into position.

The following bulletins are from the special wire of F. B. Proctor, the enterprising King street stock and commission broker. Planet readers will appreciate Mr. Proctor's courtesy in supplying them:

10.45—Both yachts are moving out fast to the starting line. Shamrock was first to leave moorings, shortly followed by Reliance. Velocity of wind is about five knots to the hour, but somewhat fluky.

10.55—Boats jockeying at starting line.

11.00—Reliance crossed line first at 11.00.05.

11.02—Light showers falling from north and north-west.

11.07—Shamrock crossed the line at 11.07.07. Reliance is leading at three lengths.

11.15—Official time of start says both boats crossed at identically the same time. Given as 11.02.

11.15—Official time of start is:—Reliance—11.00.12. Shamrock—11.00.12.

11.25—Reliance is now apparently half a mile ahead. She is on the starboard tack standing off the shore. Wind is south-east and blowing five miles an hour.

12.03—Reliance leads by 11-2 minutes.

12.09—Reliance half a mile in the lead and wind increasing in velocity.

12.15—At 11.52 the Reliance was 11-4 minutes in the lead and steadily increasing.

12.18—The Shamrock has lapped the Reliance on the beat to windward and is now leading by 300 feet.

12.30—It looks now as if the yachts would be able to finish before the time limit.

Highlands, 11.24 p. m.—The Reliance is still gaining steadily and is about two minutes ahead. She has demonstrated again to-day that in a smooth sea and fair wind she has the challenger beat at every point both in sailing and seamanship.

12.55—Reliance will win race to-

day barring a fluke. She looks to have safe lead.

1.20—Wind has considerably freshened and is now blowing eight knots and holding along from the south-east. Reliance continually improves her position and is now four minutes in the lead.

1.22—Reliance has increased her increased her lead to apparently 4-1-2 miles.

2.00—The Reliance is six minutes ahead and still gaining.

2.05—The Reliance is maintaining her lead but not increasing it.

2.06—The boats have passed the outer mark and are turned homeward.

The excursion fleet is starting homeward to see the finish of the race.

2.20—Reliance leads by eight minutes.

2.40—They could discern the Reliance coming out of the haze. She carried her mainsail to starboard and tinnaker to port. The Shamrock could not be observed at that time. Evidently there is a fog on.

With about ten miles to go the Reliance is over a mile ahead. Doubtful if the race will be finished within the time limit (unofficial).

WRINGE AND FIFE.  
New York, Aug. 27.—Stories that there was friction between Captain Wringe, of Shamrock III, and Fife were refuted last night.

In an effort to learn the truth Sir Thomas was approached on the subject. "The two men," he said, "occupy entirely distinctive positions. If they have been criticising each other I do not know it. Fife advises about the sails, the trim of the boats and other details of that character. Wringe is an absolute command, and I, as owner, have not criticised him."

It was said further on the Erin that Sir Thomas is deluged with anonymous letters and telegrams informing him that members of the crew are traitors to the interests of the boat.

Only a day ago a telegram signed by the captain of a coastwise steamer was received by Sir Thomas saying that the boatswain of Shamrock was the cause of that boat losing that race, and that the signer knew him as a traitor.

Sir Thomas said: "I throw such letters and telegrams overboard. I am not changing my crew."
