

London Street Directory.

The occupation is given in the Street Directory only at the place of business: This is done, 1st, to distinguish a residence from a place of business; and 2nd, because the occupation can be given much more fully in the alphabetical than in the Street Directory, the latter being merely a plan of the streets showing the relative positions of the buildings.

S. E. for side entrance is used in the Street Directory to show that the building in question faces the cross street.
