### PARTICULAR ATTENTION

has been given to the production of enlarged illustrations of many minor varieties, which can more easily be distinguished from a large print, but which are difficult to describe, especially to the younger collector, such as the two dies of **Argentine** 5c. ; the **Bulgaria** unpaid 5st ; **France**, two dies of the 1876 issues ; **Bremen**, three types of the 3 grôte ; **Greece**, enlarged heads of the Paris and Athens prints ; **Portugese Colonies**, the various dies of the Crown issues.

### OWING TO THE CONTINUAL PRESSURE ON SPACE

it has been found necessary to exclude entirely all "Official Seals." These are not stamps at all, but merely gummed labels applied by officials to close packets that have come open or broken while in transit.

### MANY IMPORTANT COUNTRIES

have been thoroughly revised and rewritten, such as **Belgium**, 1869-81 issues ; **Brazil**, 1894-99 ; **Dominican Republic** ; **Ecuador** ; **Dutch Indies** ; **Japan**, 1876-99 ; **Liberia** ; **Luxemburg** ; **Portugal and Colonies** ; **Roumania**, etc., etc.

**Orange River Colony** (late Orange Free State) and **Transvaal** (late South African Republic) have been rewritten and brought up to date, and removed from the body of this volume and placed at the end as a SUPPLEMENT to PART I., BRITISH EMPIRE, to which volume it will be transferred in the next edition.

The **Mafeking Seige Stamps** have also been included in this Addenda, with the prices at which we supply many of the varieties.
