

LIGHT DRAFT JOHN DEERE GANG PLOW

HOW TO SELECT A PLOW—THE RULE OF FOUR

Plow quality does not improve with age.

An inferior plow does poorer work, is harder to pull, and costs more for repairs every year it is in use.

Because certain things about a plow cannot be changed for the better after you buy it, care and study before buying, is important.

Judging the real worth of a plow is not difficult if four things are kept in mind:

- First**—Quality of work.
- Second**—Ease of management.
- Third**—Lightness of draft.
- Fourth**—Strength and durability.

THE LIGHT DRAFT NEW DEERE—WHY IT PULLS EASY

Consider five things when judging the draft of a plow:

- First**—The shape of the bottom.
- Second**—Material out of which it is made.
- Third**—Equal weight on all the wheels.
- Fourth**—Proper adjustments.
- Fifth**—Staunchness of the plow.

Write for Literature, Prices and Terms.

WHY THESE FOUR QUALITIES ARE THE TEST

First—Nothing takes the place of good work. Unless a plow does perfect work you cannot afford to own it, no matter what the price.

Second—Have regard for your own comfort—that pays. Get a plow that is easy to ride, and that can be operated with little effort on your part.

Third—Never work horses harder than necessary. Horse-flesh and horse-feed cost money. An extra one-eighth horse power added to the draft will cost you the price of a plow—very soon.

Fourth—Repairs are expensive. A good plow lasts longer than a poor one.

Deere Model B Disc Harrow

FURNISHED WITH OR WITHOUT TONGUE TRUCKS.

It is the Only Real Flexible Harrow.

PROGRESSIVE Farmers know how much more satisfactory our Model "B" Disc Harrow does its work of pulverizing the soil evenly—without skipping rough places in the "middle"—because our Third Lever with Spring Pressure Yoke and controlled draw bars, enables you to govern your disc. They can't push up in centre, as with ordinary machines. You pull the lever and it locks automatically with discs working through dead furrows or over ridges always cultivating thoroughly. Special features besides superior malleable iron parts and extra durable construction, are: Easy, Double-Spring Seat—High Frame out of dust—Adjustable Disc Scrapers—Lighter Draft, etc.

Write for Catalogue.

Deere Model K Disc Harrow

FURNISHED WITH OR WITHOUT TONGUE TRUCKS.

A STRONG substantial two-lever harrow, slightly lighter than Model "B," but having many of its points of superiority. The Frame is made from a single piece of heavy steel. The frame bars, crossbars and braces are all steel, very securely riveted and bolted together.

The Scrapers are of the improved oscillating style, and can be easily removed or replaced. Hard Maple oil-soaked bearings are used on this harrow. Disc Blades are made of the every best quality steel, thoroughly polished and sharpened. Double Angling Levers on this harrow ensure a convenient machine for lapping lands and for hillside work.

Write for Catalogue.

Both of the above styles of Disc Harrows are excellent Tools to pull behind a John Deere Engine Gang.
