OUR FARMERS' CLUB Correspondence Invited QUEBEC.

COMPTON CO. QUE. COMPTON Sept. 12.—Grain is looking fine but we are having our poorest harvest since 1885.

ONTARIO PERGUS. August 31. The continued rains for forty days (according to some it is a rather serious matter) to get harvesting done.

WELLINGTON, ONT. August 31. The continued rains for forty days (according to some it is a rather serious matter) to get harvesting done. Some grain that has been cut while it is in the field is almost impossible to put a binder into the field to cut.

WOODSTOCK, ONT. Oats are having very serious weather-rain almost every day. Oats are very heavy in the barn. The corn crop is very good.

ELMVALE, Ont. Farm crops generally are above the average, especially on turning out wheat in some cases. The wet weather is retarding the harvest.

SIMCOE CO. ONT. ALLSTON. Sept. 5.—Harvesting operations have been retarded by the continued rains. Fall wheat in many places is not dried when drawn.

HIROX. Sept. 5.—Weather conditions have become serious. All low places are flooded with water.

BRUCE CO. ONT. GLNLY. August 23.—The past week has been very broken with showers. The cutting is almost completed.

GLANWORTH, Ont. A writer paid a short visit to the farm of Mr. J. Bonson of this place.

The main farm is all the drained, and is kept in a high state of cultivation. The Manchester wheat yielded 30 bush. per acre; other kinds did not do so well.
