

**Don't wait till next spring to get your new DE LAVAL**

With butter prices soaring no cream producer can afford to go another month without a New De Laval Cream Separator.

This is true whether you have no separator, or an inferior or half-worn-out machine, or even an old style De Laval.

In cold weather your waste of butter-fat is relatively greater, either with gravity skimming or a poor separator; and at present prices for cream a De Laval would very soon pay for itself out of its own savings.

See the nearest De Laval agent right away and let him show you what the De Laval will save for you. If you do not know the local De Laval agent, write direct for any desired information.

**Has Pipes Like an Organ**

Built into the cabinet of our "Organola" Model of the "Phonola" are tone control pipes which include every note in the scale. Like an organ they separate the different sounds and give clearness and volume to the music.

The sweet low notes and overtones of an orchestra that you miss on the ordinary machine are rendered distinctly on the "Phonola Organola." The high notes of the soprano are heard without a tingle. The violin sounds like a real violin. Every instrument, every voice, is true to life.

OUR LAST WORD FOR THIS SEASON

We do not expect to be able to secure transportation after the end of December. If, therefore, you have been thinking of arranging for supplies of our fertilizer for spring use, it is essential that you do so right away. If we are not represented in your district, we will supply your requirements in ton lots and upwards at \$22 per ton ex-car at your nearest station. Or, better still, why not take a car of 20 tons and distribute same among your neighbors? You will be reasonably remunerated for your trouble. If this proposition appeals to you, write us immediately, and our man will give you a call. There is no time to be lost.
