**PATERSON'S**  
WIRE-EDGED READY ROOFING.

A shows method of laying Red Star Brand Wire-edged Ready Roofing, with 2-inch laps secured by nailing two inches apart. B B shows wires running through the edges of the roofing, giving it great strength at the joints or laps—a very desirable feature, especially in localities where high winds prevail.

We offer you a durable, fireproof roofing material for less money than you would pay for the poorest quality of shingles.  
Wire-edged Ready Roofing is made in Canada by a responsible Canadian company, who stake their business reputation on the quality of the material they manufacture. For over 20 years our roofing has successfully stood the severest test of the variable climate of Canada, and our annual sales are now fully 100,000 rolls.  
You can buy our Wire-edged Ready Roofing and other Goods from almost any hardware merchant in the Dominion.
