

GOOD HEALTH AND SUCCESS

GO HAND IN HAND WHEN THE
BLOOD IS KEPT PURE
AND RICH BY

Dr. Chase's Nerve Food.

Red blood means health, strength, courage, cheerfulness, power of endurance and a well-nourished brain that likes to accomplish things.

The secret of health is, after all, in the blood, for with an abundance of rich, red blood the nervous system is nourished and sustained, the lungs, heart, stomach, liver and kidneys are filled with the vigor and energy necessary to accomplish their work, and there is no room for weakness and disease.

Dr. Chase's Nerve Food builds up, strengthens and invigorates the whole human body because it actually forms rich, red blood.

Indigestion, sleeplessness, nervous headache, irritability, nervousness, lack of energy and strength and failure of the bodily organs to perform their functions are almost invariably the result of poor, weak, watery blood.

The use of Dr. Chase's Nerve Food completely overcomes these symptoms, and by filling the whole system with new vigor gives new hope and confidence and replaces weakness and disease with health and strength.

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous recipe-book author, are on every box.

A teacher at Stepney, East London, was giving her class an examination on the scriptural work of the previous three months. Among other questions, the lady asked: "With what weapon did Samson slay the thousand Philistines?" And the girl, jumbling her old and new Testament knowledge, stood up and replied: "With the ax of the Apostles." A woman teacher had been explaining the story of the casting adrift of the infant Moses. "Now, why was it, do you think, that the good mother daubed the little ark boat so carefully with slime and pitch?" "Oh, ma'am," said one little five-year-old girl, "to make the baby stick inside."

CURE THE MOST EXTREME CASES

Stone in the Kidneys Cannot
Stand Before Dodd's
Kidney Pills.

Mr. S. A. Cassidy, of Ottawa, Permanently Cured After Years of Suffering, by the Great Canadian Kidney Remedy.

OTTAWA, Ont., May 15th.—(Special).—While all Canada knows that Dodd's Kidney Pills are the standard remedy for all Kidney Complaints, it may surprise some people to know they cure such extreme cases as Stone in the Kidneys. Yet that is what they have done right here in Ottawa.

Mr. S. A. Cassidy, the man cured, is the well-known proprietor of the Bijou Hotel on Metcalfe Street, and in an interview he says: "My friends all know that I have been a martyr to Stone in the Kidneys for years. They know that besides consulting the best doctors in the city, and trying every medicine I could think of, I was unable to get better."

"Some time ago a friend told me Dodd's Kidney Pills would cure me. As a last resort I tried them, and they have cured me."

"I could not imagine more severe suffering than one endures who has Stone in the Kidneys, and I feel the greatest gratitude to Dodd's Kidney Pills."

If the disease is of the Kidneys or from the Kidneys, Dodd's Kidney Pills will cure it.

QUESTIONS AND ANSWERS. Miscellaneous.

LUMPS IN COW'S TEATS.

I have a cow with hard lumps in both her hind teats. They were there last summer, and she gave bloody milk out of these teats at times. The lumps are about the size of large peas, and are situated up near the udder. Can you give any treatment? J. A. M.

Ans.—These lumps are a cause of frequent trouble to many dairymen, and the only way in which a cure can be effected is by an operation with an instrument called a concealed bistoury in the hands of an expert. Better feed her for the butcher.

THE ABATTOIR BILL.

1. Would the bill, now before the Ontario Legislature, to grant exclusive rights to establish public slaughterhouses, if passed and acted upon by the municipalities, have the effect of preventing further operation of what are known as farmers' beef-rings?

2. Would the bill, if passed and acted upon as mentioned above, entirely destroy competition in cities and towns in respect of the killing and sale of cattle, sheep and hogs in such municipalities? Ont. FARMER.

Ans.—1. No. 2. It would, in respect of the matter of killing; but we think the bill as at present worded does not go farther than that.

A QUESTION OF CONCEPTION.

It has been stated that if a cow is served by two or more bulls during one period of heat she will not conceive. Is this true? If not, to which is she most likely to breed. J. B. L.

Ans.—The statement is not true, as has been proven in many instances. It is impossible to state to which service the cow will conceive; but if a conception takes place it will be when the female ovum (egg) comes in contact with a male spermatozoon (one of the living elements in the semen to which it owes its fecundating power) and is fertilized by it. In other words, when the ovum meets its affinity, which may be any one of the legion of spermatozoa in any one of the service.

URETHRAL AILMENT.

A shearing Oxford ram, purchased last fall, has been with the sheep all winter. I found, when shearing, that his penis was out and very much swollen and inflamed so that he cannot draw it into its sheath. What is the cause? What can I do for him? Will he be any use next season? J. R.

Ans.—This may be caused by the wool on the parts being fouled, and causing inflammation, in which case washing with warm soft water and soap and oiling the part with carbolic oil, say one part of carbolic acid to 30 of sweet oil or raw linseed oil, may effect a cure. It may arise from stone in the bladder or in the canal by which urine is discharged from the bladder, in which case an operation by a veterinarian might be successfully performed. This is sometimes caused by feeding mangels, and some breeders avoid feeding mangels to rams on account of this danger. If the trouble disappears, and the "worm" is not injured, he may be safe to breed from, but it will be risky to depend on him.

HORSE HAS NOT SHED HIS HAIR.

What would you recommend for a horse, five years old, that has not lost his old hair and looks out of condition, but feels well? He is fed on good mixed hay and three gallons of ground and whole oats per day, and is worked regularly. He has been fed linseed meal and stock food for some time, but is getting no better. G. G. G.

Ontario Co., Ont.

Ans.—Examine his teeth at once, or have them examined by an expert veterinarian. Give him a purgative of 8 drams aloes and 2 drams ginger, and follow up with 1 dram each of sulphate of iron and gentian, twice daily. Feed hay of good quality and crushed oats, with a couple quarts of bran in place of one-half the evening oat ration. Allow the horse to have half an hour at grass every evening. It is a good plan to hobble the horses at this season, and clean them outside while eating grass. This is pleasant and wholesome for both groom and horse.

Why Experiment?

YOU want profits—not losses—in return for the time, labor and expense invested in YOUR dairy. Don't you? Then—Why Experiment?

YOU will admit that the most butter from YOUR dairy, of the best quality, means the greatest profits. Then—Why Experiment?

YOU cannot afford to invest YOUR capital, time and labor in any but the most practical dairy methods. Then—Why Experiment?

YOU have the choice; the most butter of the best quality, or less butter, and quality a costly uncertainty. Why Experiment?

YOU KNOW what YOUR choice should be. Why Experiment?

The IMPROVED U.S. Cream Separator

will save YOU the long, unsatisfactory and costly experience which experiments always involve. It will place YOU immediately in command of the two winning points in the dairy business: quality and quantity.

Quality

Every highest score on Dairy Butter in each of the four great butter scoring contests at the WORLD'S FAIR, ST. LOUIS, 1904, including **The Sweepstakes** in the Dairy Class, was awarded to the product of the U.S. CREAM SEPARATOR against the world. "U. S." Quality Wins.

Quantity

The U.S. Cream Separator still continues to hold world's record as the closest skimming separator in the world—saves cream every day that other separators would lose.

Substantial and simple—extremely durable—proven by many years of satisfactory service. No joints to work loose, no ratchet pin to break off, no exposed gears to be injured—no repairs.

Perfect adjustment of working parts—no oil wasted. Easy to operate.

You can't make your cows pay you as they should without a U. S. Cream Separator—the best money-maker on the farm.

Now DON'T Experiment

VERMONT FARM MACHINE CO., Bellows Falls, Vt.

To ensure prompt deliveries and to save freight charges for our Canadian customers, we ship from our warehouses at Montreal, Sherbrooke, Hamilton, Winnipeg, Calgary and Vancouver. NO DELAY.

ADDRESS ALL LETTERS TO BELLOWS FALLS, VT.

403

Dunn's Hollow Concrete Block Machine

Most compact, portable and easiest operated machine in the market. Price so reasonable that it would pay you to buy one if only to make blocks for one fair-sized building. Blocks are made out in the open air, alongside of your building, or down by your sand pit. No firing or baking; no steam or other power required. Skilled labor not necessary. Full directions furnished with machine.

MAKES BLOCKS for houses, bank barns and buildings of every description. Cheaper than brick or stone and much handsomer. Warmer in winter; cooler in summer; and indestructible.
