

## Was Confined To Bed FOR FOUR MONTHS

RHEUMATISM THE CAUSE  
DOAN'S KIDNEY PILLS CURED HIM

Mr. W. H. Riley, Ruddell, Sask., writes:—"It is with the greatest of pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who saw me then would not know me now, as I am so strong and active since taking your valuable medicine."

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering direct, specify "Doan's."

## Southdown Sheep

The market to-day demands quality. It pays to breed what the market wants. Can you do this more cheaply or quickly than by heading your flock with a right good ram of this most perfect of mutton breeds? Orders taken for a few sturdy young rams for all delivery.

If success went by weight, there is no doubt that the next President of the United States would be Mr. Taft.

The story goes that he once paid a visit to some friends who live in a house that was neither built nor furnished to meet such an emergency. As he walked about his room the whole house shook with his tread, and when he climbed into bed, that piece of furniture gave a groan of despair and collapsed on the floor.

His host, hearing the racket, rushed up-stairs and called through the door: "What has happened? Can I do anything?"

"Oh, I'm all right," came the cheerful reply. "Only if you don't find me here in the morning, look in the cellar."

## QUESTIONS AND ANSWERS. Miscellaneous.

### ENSILING MILLET NOT ADVISED.

I planted five acres of corn, but it came up very thin, I thought too thin to make a crop. I cultivated it up and sowed millet on it. Of course there is quite a lot of corn in the millet. How would it do to cut it and put it all together in the silo? J. B. W.

Ans.—Would not recommend it.

### WASHY HORSE.

How can I prevent a horse from scouring? I have a 16-mile drive every day. Am feeding whole oats, a little oil-cake meal, and mixed timothy and clover hay. Always water before feeding. What could I feed to prevent this? How and what would be best to feed a road horse? M. C. S.

Ans.—This is what is called washy horse. Some horses are congenitally predisposed to a semi-diarrhea, and in such cases drugging is not wise. Be careful not to feed laxative food. The administration of 1 dram powdered opium night and morning may check it if it is bad. See to the animal's teeth, as this condition is frequently a result of imperfect mastication, due to uneven molars. In some cases it is well to purge with a ball consisting of six drams aloes and two drams of ginger; then give daily in powder, one dram each of gentian, ginger, and nux vomica, to tone up the digestive system. Exercise great care in feeding and watering, discontinue the oil-cake meal, and feed clean hay and ground oats. Timothy hay, well cured, and plenty of good oats, are the best feeds for a horse doing several miles on the road daily.

### SHED CONSTRUCTION.

We are contemplating rebuilding our church sheds, which we plan to be 128 feet long by 50 feet wide, with entrance at one end and driveway down the middle. We want a covered shed, and would like a lot of advice as to how it should be built. Would a circular roof on a cement base be advisable, or would some other plan of a roof be better or cheaper, or both? Would like an estimate of lumber required, and cost of shed, exclusive of cement base or side walls. Would such a shed need windows? H. R. P.

Ans.—The building of church sheds is a little out of our line. We would suggest that you consult a carpenter or contractor about the matter. A cement foundation, properly constructed, would be very satisfactory. What is the matter with an ordinary, straight-pitch roof? A shed closed in on all sides, as we understand you propose to build this one, would need windows. For estimates on lumber required, and cost, get your carpenter to figure. He will be able to show you a comparison in cost between the round and straight-pitch roof. Properly constructed, either will be found efficient.

## Veterinary.

### BLEEDS FROM NOSTRILS—GOITRE.

1. Bought a pair of horses that were brought to Alberta over a year ago. Both had heaves, from which they partially recovered. They bleed slightly from the nostrils after a hard drive, or a long, heavy pull.

2. Horse has a large, hard, movable lump at the right side of neck, just back of the jaw bone. A. A. D.

Ans.—As a result of the diseased condition of the lungs, the coats of the small blood vessels of the respiratory organs have become weakened, and some of them ruptured when the animal was subjected to such severe exercise as to cause materially increased respiratory movements. If such should occur in many vessels or larger vessels become involved, the volume of blood might be sufficient to suffocate the animal. Nothing can be done to strengthen the vessels. The application of cold water or ice to head and chest will tend to check bleeding during an attack.

2. This is an enlarged thyroid gland. The daily application of an ointment made of 2 drams each of iodine and iodide of potassium, mixed with 2 ounces vaseline, will reduce it to some extent, unless disintegration has commenced and fluid formed in the gland. V
