CAMPAIGN FACTS

Many baseless rumors are in circulation respecting the effect of Local Option on the moral and commercial life of the communities in which the law is in force, and, in refutation of these, supporters of the law offer the following testimonials:-

FROM WINCHESTER

Winchester, Ont. Dec. 11th, 1911

In reply to many inquiries in reference to the working of Local Option in Winchester we would state as follows:-
The Act has been in force since May 1st, 1907, which has given a pretty good opportunity to judge as to results. Without hesitation, we would state that morally it has been a great improvement. It has done away with the open bar and has almost entirely stopped the sale of liquor in the place. The law has been well observed. Not a single complaint has been entered for violation of the act since it came into force nearly five years ago. While a limited quantity has been brought in by private parties we are satisfied that its use is steadily decreasing.

Our largest employers of labor are strong advocates for local option on the ground that the men are steadier, lose less time, and do better work than they did under the license system.

That the citizens generally are satisfied is shown from the fact that no move has ever been made to bring on a repeal vote, though this could have been done in the last two years.

One argument used against local option is that many people will pass a dry town to do their business where there is license. We have found this true to a very limited extent, but have also found that the increased purchasing power of the home wage-earner more than makes up for any loss caused.

We are informed that bank deposits have materially increased during the past five years.

The rate of taxation has not increased; it has, in fact, averaged lower for the five years of local option than for several years previous, and is a very low rate the present year. The tax collector has had very little trouble over collections. On Dec 14th, 1908, there was less than ten dollars uncollected taxes for that year. On same date in 1909 (outside of one small property, the owner of which was non-resident) not a dollar of tax remained unpaid. At the close of 1910 one hundred dollars remained uncollected, but was paid in a month thereafter.

Winchester suffered from a bad fire soon after local option came into force, both hotels and several business places being wiped out. This interfered with business for the time being, but now that we have ample hotel accommodation that trouble has been done away with.

Two of our largest manufacturing establishments have extended their plant during this year and are employing more hands than formerly.

We are of the opinion that if local option were submitted to a vote of the people to day it would be sustained by a larger majority than when it first carried.

FROM LANSDOWNE

Lansdowne, Dec. 2nd 1911

To whom it may concern—
We, the undersigned business men of Lansdowne, wish to state the fact that we have found business in a more healthy condition during the term we have been under the Local Option law prohibiting the sale of intoxicating liquors, than formerly under the license system. A higher standard in quality of Merchandise is being sold, and more ready cash available. We firmly believe the community generally has been greatly benefited, both financially and morally.

W. T. ROGERS,—PRINCIPAL

IT IS UP TO YOU

To protect your family from the ravages of disease and infection; and the rigors of winter; to make your home the abode of Health and Happiness.

Statistics tell us that there were over 250,000 deaths in North America last year from fever and pneumonia; over 90 per cent of these cases were traceable to out-door closets, and all the result of insanitary conditions.

Are you going to allow this terrible death rate to continue? Why not insure health by installing a "Parkyte" Sanitary Chemical Closet.

Absolutely sanitary and odorless; carries the endorsement of Physicians and health Officials, and our own iron-clad guarantee. Requires no expensive water system, no plumbing, no sewage. Can be installed in any part of your home at the cost of a few minutes of your spare time. Lasts a life-time and costs less than a cent a day.

"Parkyte" Chemical has been proven by bacteriological test to be the most powerful Disinfectant, Deodorant and Germicide known to Science.

The "Parkyte" Sanitary Chemical Closet is sold by

KARLEY & PURCELL, Athens, Ont.

A call there will convince you. No further argument will be necessary.
