The Canada Food Board

Do householders in Cauada seek to evade the food regulations? Are the merchants of Canada consuiving at the evasion of the tood regulations? Let us see about that.

Solving the Nation's Shoe Problem LARGE section of the Canadian public depends upon this company for shoes. Our financial resources and buying, power are greater by far than those of any other Canadian manufacturer of shoes; our volume of output is more than twice that of any other. Our sales organization covers the nation from coast to coast, not merely a small section at a time.

Our six branches maintain adequate stocks within the reach of every dealer in Canada, and are now serving more than 5,000 dealers, enabling them to fill orders quickly and to cut down the amount of idle stock on their shelves.
