The Greenwich Community League had its first meeting on Friday evening, when the Nominating Committee, Mrs. Burpee Bishop, convener, brought in their report. Miss Bessie Fraser, as president of the League last year, was in the chair, the Honorary President, Rev. Dr. Hemmeon, being absent unavoidably. Various business matters were discussed, making a long meeting. Those nominated for the season were as follows: Rev. D. B. Hemmeon, D.D., Honorary President (re-elected); Mr. W. R. Ward, President; Mrs. John Fenwick, Vice-President; Mrs. Douglas Neary, Secretary; Mr. Boden Fraser, Treasurer; Miss Minnie Bishop, Pianist, with Mr. Philip Bishop, substitute pianist; Mr. Robert Bishop, convener of Music Committee; Miss Bessie Fraser, convener of Dramatic Committee; Mrs. A. K. Forsythe, convener of Social Committee. Convener of the Literary and Educational Committee not yet appointed. Lecture night is in charge of Dr. Hemmeon, Each committee convener has a strong staff of assistants and good work should be the order of the League this season, which, we understand, will not be in full working order until after Christmas as all are so busy at present. It was decided that every second social night be wholly for children's entertainment, the "eats" as well, but any grown-up is welcome to be present. Other nights, children under 14 years must be accompanied by one or both parents or a suitable guardian. This was caused by complaints last winter of many on account of noise or confusion on lecture night and other evenings. We wish the G. C. L. good success. It has been a good organization in the place socially, developing the talents in the young people which otherwise would not have been known or enjoyed. Our pastor, Rev. Dr. Hemmeon, is deeply interested and a great help.

Stations from Kentville to Halifax will be taken care of with a similar service on Wednesday of each week.

Shippers generally will appreciate this service as enabling them to send their less carload shipments of perishable products to Halifax market without danger of frost, at but a small increased cost for heating over regular freight rates. The Dominion Atlantic Railway are
