BRISTOL'S SARSAPARILLA

Key West, May 3.—The British cruiser Talbot, from Bermuda, arrived off Havana yesterday afternoon and sent a beat alongside the Montgomery, the acting flagship, with a message that she intended visiting Havana unless the blockading squadron considered that their interests would be adversely affected by her so doing. Commander Converse, of the Montgomery, replied that there was no objection on his part, and the British warship steamed into the harbor, her crew cheering the American sailors as they parted. The commander of the Talbot declared that he did not expect to remain at the Cuban capital, but meant to send a launch to see the British consul and would afterwards proceed to Key West. He will probably bring away British subjects who desire to leave Havana. DR.WOODS NORWAY PINE SYRUP

remier Says it Will Not be Held on RHEUMATISM the Present Lists

Ottawa, May 2.—The Government is hesitating over the bye-election in Bagot, Quebec. Mr. Foster enquired in the House to-day when the writ for Bagot would be issued.

Sir Wilfrid Laurier replied: This is a question which we have considered, and I would like to have the opinion of my hon. Friend if he thinks it is advisable to hold an election upon lists which are already four years old, when there is a prospect that we cam have fuller lists than exist to-day. Bristol's

that we cam have fuller lists than exist to-day.

Mr. Foster replied: I do not quite see why there should be any discrimination at this particular time. It occurs to me that the election for West Prince was carried on upon these same lists, and other elections as well. Speaking for myself, I certainly think it just and right that Biagot should elect its representative upon lists which are no older than those which were used in the West Prince election.

Ottawa, May 2.—Canada does not propose to tell the world what it is doing in conjunction with the Imperial Government to make its defences effective. Some time ago Mr. Casgrain called for the official correspondence on the subject. To-day, Dr. Borden brought down a letter from Major-General Gascoigne on the subject as follows: "The whole of the papers and correspondence are of a confidential or secret nature, and while I realize that it is desirable that as many people of importance as possible should be acquainted with the general principles of defence, still I feel that it would be unwise to make any portion of the correspondence a parliamentary paper, such as would be accessible to the public. Indeed, in more than one case the Imperial Government has definitely requested that special care should be taken that the contents of papers should not be generally known." In this statement the Minister of Militia concurred, and therefore did not bring down any papers.
