Arrival of Parnell and Dillon in New York.

New York, Jan. 2.—The steamship *Savilla* arrived in port yesterday morning on board Messrs. Parnell and Dillon, both of whom were received by a large delegation of prominent citizens from other cities and heartily welcomed to America.

The delegation at an early hour this morning steamed down the bay in a revenue cutter and boarded the *Savilla* on her way up. Mr. Parnell and Mr. Dillon, the citizens of New York and another by the citizens of Chicago were presented.

Parnell replying as follows: "I regret my poor voice is not sufficient to do justice to my appreciation of the kindness and honor done me. It has always been a great pleasure to me to come to the United States, and I am glad to be able to speak to a people of Ireland who are of more happy and prosperous character, but we must hope and believe that the time is approaching when we may be able to speak of Ireland as other men speak of their own country, as really and truly among the nations of the earth. Our task is a double character. We have to do with a people who are not only discontented and suffering in our country, and we have endeavored to break down the system and, with God's help, we are determined to break it down. The victims of this system are not suffered to perish in the meanwhile. The physical suffering, misery and starvation in a large portion of the population of Ireland have not been exaggerated. We have been calling on the Government for eight months to relieve the distress, but only within the last few days the English Government has agreed to admit that there is any distress, now that it is too well spread for almost any effectual remedy. Do those rulers in England appear to understand their responsibility? We, who have been suffering at this great land question have not made any appeal to the Government for the relief of the destitution; we cannot longer shut our eyes to the terrible peril of the people, and we think we ought to put the case before our own countrymen, both at home and here in America; we know our countrymen in America will do their duty, as they have in every crisis, to their suffering brethren at home. I confidently anticipate the result of our mission will be of such a nature as to give pleasure to you and also give help to our people at home."

Dillon was called upon and also spoke, referring in complimentary terms to the generosity of America to their suffering brethren at home.

RAILWAY TO HUDSON BAY.—The Ottawa Free Press says: It is said that the application for charter to build a railway from the head of Lake Winnipeg to Port Nelson on Hudson Bay really emanates from the Hudson Bay Company. This company appears to be in a position more than in any preceding one, that their real interests lie in colonizing the North-West, so we hear not only of building the line of railway alluded to, but of the transformation of the Thames of four of the company's ships into steamers, capable of breaking ice, and of an anticipated immigration under the Company's auspices of forty thousand people from Europe to the North-west during the spring and summer of 1880.

Rutherford's clearing sale has been a great boon to the people since the announcement of it. Goods were never sold at such low prices.

ASSAULT.—James Penleton appeared at Police Court this forenoon for assaulting James Swan by striking him with a shovel. Some evidence was taken for the prosecution when at the request of complainant—the case was adjourned till Wednesday. It appeared that the assault, which was not a very serious one, arose through a quarrel, and Penleton thinking Swan had said something insulting, struck him with the shovel.

INCORRIBLE.—This forenoon there was a scene at the Police Court when John Cunningham was being tried for vagrancy. A man named Slater thinking the prisoner had been placed in a false position, rose and was bound to testify to his good character whether the court would or not. An order from the Police Magistrate was sufficient to satisfy the voluntary witness that his testimony was unnecessary.

RUNAWAY.—A team of horses driven by Alex. Campbell, ran away yesterday from the neighbourhood of the Victoria Bridge. Mr. Campbell was racing his horses with a span driven by Mr. Laing when they took fright. The animals made a spring, and becoming detached, drew Mr. Campbell over the dashboard. He retained his hold on the lines but was unable to control the horses, which dashed southwards rapidly, drawing him along the roadway. At length the lines broke and the animals, becoming free, galloped about two miles along the road where they were after.

wards found, one on each side of a rail fence. Mr. Campbell though somewhat bruised, sustained no material harm.

REQUIRED ATTENTION.—Gordon street at the railway crossing is in such a condition as to make it dangerous for teams to cross the track. The rails project above the boards laid between them, and are an obstruction to sleighs. It is with difficulty that teams can cross the track at all, and every day they may be seen stuck at that point.

Unless this defect is remedied it may occasion some serious accident as trains are constantly passing. The authorities should make no delay in repairing the roadway at that place.
