Ottawa, Jan. 20—A couple of important changes will be discussed at the annual meeting of the Dominion Rife association next month. One contemplates the making of the first range 300 yards in place of 200 which is considered too easy. A new torious over Hallen in a five-mile league will not abide by the salary limit.

Mr. Fleming favors a four or six the first range and Bob Hallen in the salary limits. The league with a moderate salary and economic management. The league would include Lethbridge Medicine Hat, Edmonton and Calculation of the salary limits.

The question of providing for the pupile now clamoring for admission to the lower rooms had become a very urgent one, said Mr. Bansom had informed him over the phone, that four new pupils were asking for admission, and it would be necessary for their accommedation to put four additional seats in a room which was already full.

already full.

Mr. Brotherton went on to outline the board's handling of the problem last year, when a temporary structure was put up to meet an emergency. The high school bylaw had been turned down by the taxpayers, and the board were again faced with a very serious situation. A room had been rented from the Anglican church and this had given a little relief for the time being. The question row arose should the new buildings be of a temporary or permanent charof a temporary or permanent char-acter? The opinion of the hoard seemed to be that the latter would be preferrable. A temporary build-ing was of little use, said Mr. White
