A TIME TO DIE.—“She took cold at the ball, and never afterwards left her room until her death.” This has been the closing history of many a gay and blooming girl, and it is a sad history. And have not some taken cold in church, which has terminated fatally? Very true; but when the last messenger comes, how much better to be found by him in the way of duty than in the paths of folly! The most thoughtless would scarcely say deliberation, that the ball-room is the fitting place where the announcement should be made to them—this day, or this week thou must die. Habitual attendance on such places of amusement is altogether unfriendly to serious feeling, so that none think of praying to God or worshipping him amidst the dance. To be found there by death is hence a sad proof of a surprise in sin. The world insists upon the innocence of the amusement; but let them associate its frivolity, its abuse of time, its vanity, its jealousies, its rivalries, with the near approach of death, and say, if they can, that it is the right time and place to receive God's solemn messenger.

LIE IN BED WITH THE HEAD HIGH.—It is often a question among people who are unacquainted with the anatomy and physiology of man, whether lying with the head exalted, or even with the body, was most wholesome. Most consulting their own ease on this point, argue in favour of that which they prefer. Now, although many delight in bolstering up their heads at night, and sleep soundly without injury, yet we declare it to be a dangerous habit. The vessels through which the blood passes from the heart to the head, are always lessened in their cavities when the head is resting in bed higher than the body, therefore in any disease attended with fever, the head should be pretty nearly on a level with the body; and people ought to accustom themselves to sleep thus to avoid danger.—(Medical Journal.)

WHAT IS A CABINET COUNCIL?—When I came into office, I was curious to understand the course of proceeding or interior constitution of our government. It is vague in the extreme, and often irregular and inconvenient. The cabinet, which is legally only a committee of the privy-council, appointed by the king on each distinct occasion, has gradually assumed the character, and in some measure the reality, of a permanent council, through which advice on all matters of great importance is conveyed to the crown. But through the necessity of a well-concerted or party government, in a limited monarchy and popular constitution, has generally established the wholesome doctrine, that each and every member of the cabinet is in some degree responsible for the measures adopted by the government, while he is a member of it, yet there are no precise laws nor rules, nor even any well-established or understood usages, which mark what measures in each department are or are not to be communicated to the cabinet. There is nothing but private agreement or party feeling generally, or the directions of the king accidentally, which obliges even a secretary for foreign affairs to consult his colleagues on any of the duties of his office, before he takes the king's pleasure upon them. When a cabinet is held at a public office, it is generally at the foreign office. The acts of that office, however, are not invariably laid before the cabinet; and the secretary of state at his own discretion advises and completes many without any such consultation. In the other branches of administration, such as the Treasury, the Home Secretaryship, the Admiralty, the discretion is yet larger, as to the matters in their respective departments on which the ministers take the king's pleasure directly, or previously consult their colleagues before they advise him.—(Lord Holland's Memoirs of the Whig Party.)

The R. M. Steamer Niagara conveyed her living freight of soldiers to Malta, landed it, and was back, ready to convey a second cargo, in less than twenty days. The sailing vessel that had performed the same distance in 50 days would be considered a clipper.

MRS. WINSLOW.

An experienced Nurse and Female Physician, presents
to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.

For the Nervous Affections, Convulsions, Fever, Inflammation of the Bowels, &c. that attend this period of children, she recommends it as sure to produce the desired effect, giving Rest to the Mother, and Relief and Health to the Infants.

A child in Cornhill-Street was cured by the Soothing Syrup of Infantile Dysentery or Diarrhoea after being given over by the attending Physician.

Mr. Blackman, of Eddington says, it has never failed to cure the Dysentery or Diarrhoea in children whenever used in the village. Lots of it sold.

One parent informs me his child has suffered to an alarming extent, with Flatulence and Colic, taking the Soothing Syrup, and it always effects a speedy cure.

Hundreds of like instances might be enumerated.

PROOF POSITIVE.

Mrs. CURTIS & PERKINS!—Please send us a further supply of Soothing Syrup. We are selling large quantities of it, and from what we can learn, it is with uniform success, both by children and adults, in all cases of Dysentery or Diarrhoea.

Yours respectfully,
W. D. CRUMMIE,
J. MORRILL.

New-York, July 10th, 1853, 315 Bowery.
Dear the Brooklyn Daily Advertiser, of
June 12th 1853.

We cheerfully comply with the request of a friend to insert the following letter which we are assured is from a lady of the first respectability, residing in Lowell, Mass., believing that a vast number of persons may be interested in the very valuable lives saved, by calling the attention of readers to this valuable prescription of an old and experienced nurse:

Dear Sir—I am happy to be able to certify the efficiency of Mr. Winslow's Soothing Syrup, and to the truth of what it represented to accomplish. Having a little boy suffering greatly from teething, who could not sleep, and from what we can learn, did not permit any of the family to do so, I purchased a bottle of Soothing Syrup, in order to test the remedy, and when given to the boy according to the directions, its effect upon him was like magic, he soon went to sleep, and all pain and nervousness disappeared. We have had no trouble with him since; and the little fellow will pass through the world in safety. I will pass through the world in safety. The sole aid of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children, should possess it.

Lowell, Mass.—Price 25 cents a bottle.

NEUROLOGY, OR SCALP RHEUMA TISM CURED.

This may certify, that for about four years I was severely afflicted with a disease in the hip, which was accompanied with a violent pain in the head, and resorted to various remedies without any permanent relief; have been under the care of a regular Physician for six months at a time. Last spring, had a very violent attack, which laid me up, when I made use of the Cramp and Pain Killer, prepared by Messrs. Curtis & Perkins, of Bangor, It gave me immediate relief, and I need not say, that it relieved the attack. As all others bearing this name are base imitations, Price 12^c, 25, 37^c per bottle according to size.

Also for sale those parts
