

Grandmother made delicious things to eat

SNAPPY, brown cookies, coffee cake with fruit and spices put in with a generous hand, pumpkin pie with the genuine old-time flavor, and many more. All these good things Grandmother made with brown sugar. Her granddaughters can make them just as successfully to-day if they use

Lantic Old Fashioned Brown Sugar

Pure brown sugar gives to baking and desserts the characteristic molasses taste which is a great improvement to many dishes. Brown sugar, as well as white, should be kept in the pantry of every household which appreciates old-time goodies.

Brown sugar is economical. It costs a little less per pound than other pure sugars and it flavors as well as sweetens. Grocers sell as much as you wish.

FINE FOR BABY'S BATH

Baby may kick and splash as he pleases—the surface, smooth as a porcelain tub, will never scratch or hurt him. Keeps the water warm, too.

EDDY'S INDURATED FIBREWARE

makes an ideal bath-tub for the little tot. It is safe, convenient and easy to handle. Wooden tubs become splintery; metal tubs heat quickly, and are too cold or too hot to the touch. Your dealer has this light, convenient, economical, double-purpose tub. You will be highly pleased with it.

Black as Dirt About the Eyes

Liver Was All Upset and There Was Pain Under the Shoulder-blade — Two Interesting Letters.

So many people suffer from derangements of the liver that we feel sure these two reports, just recently received, will prove interesting reading and valuable information to many readers of this paper.

Mrs. F. L. Harris, Keatley P.O. Sask., writes: "I was suffering from liver trouble—had a heavy pain under one shoulder blade all the time, and was nearly as black as dirt around the eyes, so I concluded to try some of Dr. Chase's Kidney-Liver Pills. I did so, and before I had taken one 25c box the pain had left me and I commenced to gain in flesh, and by the time I had taken two boxes I was completely cured and felt like a new person. My trouble was caused by heavy work out-of-doors, and, of course, heavy eating and constipation. I would advise anyone suffering from kidney or liver trouble to give Dr. Chase's Pills a trial."

Mrs. Charles Terry, Tweed, Ont., writes: "Before I was married I was troubled with enlargement of the liver. My liver became so enlarged that you could detect the swellings on either side, and it was only with difficulty that I could get my clothes on. A friend advised me to get Dr. Chase's Kidney-Liver Pills and take them. I commenced this treatment, and used nine boxes, which cured me at that time. Then, about two or three years afterward I was troubled again with the swelling, but only on my right side. I secured some more Kidney-Liver Pills, and took them, which finally cured me. I have not been troubled in this way since. I can cheerfully recommend Dr. Chase's Kidney-Liver Pills to anyone having kidney or liver trouble."

"We have also found Dr. Chase's Linseed and Turpentine excellent for coughs and colds. In fact, any of Dr. Chase's medicines which we have used have been good."

"Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, 5 for \$1.00, at all dealers, or Edman Bates & Co., Limited, Toronto."

FERTILIZER

OUR first advertisement calling the attention of the farmers and dealers to the necessity of ordering their fertilizer early, and having it shipped early appeared in this paper four weeks ago. Since that time we have had a large number of our old customers ask for their fertilizer to be shipped at once, and we have had many enquiries and orders from new customers. The time when fertilizer will be used is approaching and the indications now point to an early spring. There will undoubtedly be a heavy call for fertilizer, and it will not do to put it off too long.

Notwithstanding the shortage of fertilizer for the past several years, particularly the spring of a year ago, we had a good supply and were in a position to take care not only of our own trade but of many customers who were disappointed in not being able to get their fertilizer. This condition may repeat itself this year and it will surely do so if you do not make arrangements early for the spring supply. It is certain that unless orders are placed the manufacturers will not take the risk of carrying over to next year materials bought on the present market when the prices are at the highest, and the tendency on the contrary will be not to carry even the slightest surplus with the possibility of having it on hand at the end of season.
