About a year ago a tooth which was being pulled, got down in the child's windpipe and could not be got out. It has since passed down into one of his lungs. Nothing can be done to remove the obstruction from the lung. The many friends of the family will regret to learn this distressing news.

MILITIA AFFAIRS
Ottawa, July 22—It was authoritatively announced to the Canadian Press, Limited, to-day that there will be no reorganization of the personnel and duties of the Canadian militia headquarters staff before August.

Sir Arthur Currie, who is leaving military life to become president of McGill University is still on leave of absence and will not return to Ottawa until August 1, and whatever reorganization takes place will occur subsequent to that date.

It is not improbable that the duties of the Inspector general of the Canadian forces after Sir Arthur finally retires will again become what they were in pre-war days, when the Inspector general was not a member of the militia council, the view then being held that he should not be in a position to pass upon his own act. While everything is in the air in regard to new appointments, it is regarded as quite probable that Brigadier General Burstall will be the next Inspector general.

A Mother's Trials

Care of Home and Children Often Causes a Breakdown

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood as necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood, and through their use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

You can get these pills through the mail, or by mail order, at 25 cents a box or six boxes for \$1.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
