We would sinducted such a model paper himself; he has dealt so fair and generously by his opponents; he has so carefully refrained from displaying a spirit of spite or vindictiveness in referring to others, that it is little wonder that he weeps these bitter tears, and heaves these dismal sighs, as he ponders over the relentless ingratitude of the awful HERALD. As one reads his pathethic plea for leniency, one almost forgets that the so called "editor of the Gleaner" ever published column after column of the foulest and most malicious calumny, accusing the attorney general of stealing money from the public chest for personal ends; one almost forgets that he has without rhyme or reason accused the pocket and in the pockets of his friends; same cowardly individual who recently published a personal article accusing one being drunk when a certain appointment was made; or that he ever descended to the malignant personal attacks on Mr. Wilson which were rehashed for the hundredth time in his Friday's issue; when he preaches about journalistic "decency' one is forced to smile; and when he has the nerve to prate about "low-bred inspiration" and "ingratitude to friends." if it were not for the boiler-plate matter and stereotyped abuse of Mr. Wilson, one might almost forget that all this is written by Jimmy Crocket of the Gleaner, the individual who basely deserted his friends as soon as he thought he could stand alone, because they would'nt satisfy his greed for public pap; who treacherously stabbed another confiding friend in the back, like an Indian, the moment it profitted him to do so; who has misrepresented his benestill ready to sell and betray, friend after are sixty men employed at present and numerous inaccuracies alleged by the conservative county districts to obtain a restrict of the posts of the posts of the posts of the conservative county districts to obtain a restrict of the posts of the pos friend and party after party for blood money, as long as they will trust him, until the name of Judas is written all over August. In committee of the Dominion parliahas been hoaxed by designing friends. We have also failed to hear the complaints about the unjust treatment Fredericton is receiving from the management of this company. The present time table announces an express daily between Chatham and Fredericton, making the distance in five hours, and a freight train daily each way thus giving the patrons of the road an extra train daily, and a much foster service. This should not like the foster service and friends about the railway resolutions Tuesday afternoon, the subsidies to the Tobique value and Moncton, Restigouche and Moncton, Restigouche and Victoria, Woodstock and Centreville, and St. John Valley and River du Loup were duly passed without discussion. At the evening session a long discussion took place on the proposed a much faster service. This should not give any cause of complaint. Altogether it looks as if our friend's head was sore, and that he had been looking for something to complain of, and has not been able to find discussion took place on the proposed out was defeated by a vote of 63 to 43.

The new train arrangement improves the service of that road very much, giving greater accomodations and better connections than any former one. They run two trains per day each way, the express being run through in five hours, making close connection at Fredericton with the C. P. R., train, which leaves this city at 10 A. M., for St. John and the west.

The connections at Chatham Junction with the Intercolonial are not as close as desirable, but we are assured by the officials that they are the best that can be made without increasing the train staff to a greater extent than the present earnings of the road will justify.
