The Methodists of Tipperary appointment have decided to remove their church to what is known as the "old School site" on Churchill's Corner, where it will be made equal to a new building. A board of trustees has been appointed, and subscriptions are to be taken up immediately. Mr. Arthur Cantelon has the contract for removing and repairing the church, and has commenced operations. It is proposed to hold a tea meeting shortly, the proceeds of which are to be applied towards paying the expenses.

The first debate of the season took place at the R. R. Hall on Friday evening of last week before a large audience. Subject—"Resolved that to fence out would be a benefit to the country." Duncannon.

JUVENILE WARFARE.—To say that there was a row at one of the street corners last Saturday night would be a very mild statement of the affair. The deuce was to pay—excuse the term, but no milder word will answer. In the lexicon of piety, which I very much prefer, there is no word strong enough to express such juvenile caselessness as took place that night, and which seemed to have been in full bloom. The whole street corner appeared on the brink of a civil war. Owing to some uncomfortable cause or other, an ill feeling has existed for some time past, between the urchins of Cranford and those of this village. Probably in the hope of having the feud settled in some manner, shape or form, the Cranford urchins condescended to send with a body guard of a few chosen "men," a representative here on the above mentioned night, to confer with the "commander-in-chief" of the juvenile army of this place. And the result was that after a lengthy discussion, carried on in anything but a low tone of voice, and delivered in anything but polite language, the Cranford representative "pooled off," strutted out, and challenged his adversary to settle the question at issue with the fists. To this the Duncannonite had no objections, so at it they went, and an odd destruction of beauty commenced. All our residents who witnessed the affair—and they seem to be out en masse—deserve to be censured for the way they stood and watched each other without raising a finger to stop it. Instead of this, they enjoyed the sight hugely, and so the boys, without interruption, pounded each other until they were tired. Ye Gods! what will our village come to if such corruption of morals in the "rising generation" is allowed to go unchecked! Our lockup, I am afraid, is nothing more than a big "scare-crow," and the "crows," it seems are getting used to the "scare." And our constable—well, good, easy man—I think he is rather too tender-hearted.

Exeter.

A CALL TO BE GIVEN.—At a meeting of the congregation of Cavan church, Exeter, held on the 18th inst., it was unanimously agreed to tender a "call" to Rev. Mr. Thomson, of Brucefield, to be their pastor at a stipend of \$800 per year and free manse.

FOR MANITOBA.—Mr. W. J. White, who has been express agent in this place ever since the building of the London, Huron & Bruce Railway, left on Monday last for Brandon, Manitoba, where he purposes publishing a paper called the Brandon Star.

Hullett.

RENTED.—Mr. J. Upshall has rented his farm on the 2nd con., to Mr. R. Van Egmond.

FARM CHANGE.—Mr. Wm. Best has purchased from Mr. Jenkins, of Goderich township, 200 acres of land, being lots 11 and 12, 10th con. Hullett, for the sum of \$6,000. Mr. Best has now 300 acres of which 180 are cleared.

TEACHER ENGAGED.—The trustees of school section No. 6, Hullett, have engaged Mr. Newton, of Howick, as their teacher for next year at a salary of \$420. Mr. Newton has a second-class certificate and is said to be an excellent teacher. There were about 20 applicants for this school.

Porter's Hill.

ENGAGED.—Mr. Thomas M. Higgins, has been re-engaged for Porter's Hill school, at a salary of \$475, being an increase of \$50 more than last year. Mr. Higgins is a thorough, practical teacher, and the trustees are alive to the fact.

Mr. David Roberts, who left here last March to seek his fortune in the land of superior acquisitions, has returned. His idea of the Prairie Province, though somewhat conservative, bears sound judgment. He states that he has had a drink of good water for three months, and further that the land lacks carbonate of lime or any other ingredients requisite to stand the heavy crops that have been successfully reared from the fields of Ontario.

Iriatown.

FASHIONABLE WEDDING.—On Tuesday the 25th of October, in St. Columban church, Iriatown, was the scene of the marriage of Mr. G. K. Holland, councillor for McKillop, son of Michael Holland, Esq., to Miss Barbara E. Eckhart, second daughter of John Eckhart, Esq., McKillop. Mr. J. C. McCabe, of Arthur, was groomsmen, and Miss Aggie M. Kempf of Waterloo, bridesmaid. The nuptial knot was tied by Very Rev. Father Dean Murphy, assisted by Rev. Father Lamont. After a recherche dinner, which was partaken of at the residence of the bride's father, the young couple left amid a shower of rice and good wishes, to spend their honeymoon with friends in Waterloo and Montreal. The bride was most beautifully dressed. Her whole trousseau was of the most excellent that could be had. The groom looked his best and appeared to be the happiest man on earth—as well he might.

Seaford.

Shippers are complaining grievously about the scarcity of cars at the Grand Trunk station here, and business is much retarded in consequence.

Mr. John Latimer was entertained at a complimentary supper at Carroll's Hotel on Friday evening last, prior to his departure for Winnipeg, Manitoba.

Mr. John Lee met with rather a serious accident on Thursday morning last. He was engaged in shingling the roof of a new building at the residence of Mr. John Beattie when he slipped and fell to the ground. Some of his ribs are fractured, and he received such other injuries as will likely lay him up for several weeks.

On Tuesday last Mr. Robert Steel while adjusting a belt in Kyle's saw mill at Egmondville, got his arm caught in the pulley, causing a fracture at the wrist. Fortunately he was not otherwise injured.

Mr. Thomas E. Dennie, of the Huron Road, McKillop, has left with us a sample of black oats which he procured from a seedsman in Winnipeg. These oats were grown this season and the yield was 118 bushels per acre. They were grown on a farm near Winnipeg, and are of as good a quality as our common oats.—Expositor.

Clinton.

LAW OFFICE.—We observe that Mr. James Scott, who was recently called to the bar, has opened a law office in Clinton, county of Huron. Mr. Scott is a young man of more than average promise.

A GOOD IDEA.—Mr. Wm. Jackson has introduced a plan of giving information to the public that will be appreciated by business men, and travellers especially. He has placed outside of his store a blackboard, and having telephone communication with the railways, the fact of express or mail trains being on time, or late, is pencilled on the board. He also intends making announcements of any important event that transpires.

A MAMMOTH STOREHOUSE.—As the traveller from the east approaches Clinton on the Grand Trunk Railway, he is struck by the appearance of an immense frame structure, which he hardly needs to be informed is a grain warehouse. This is the building lately completed by and for the use of Mr. R. Irwin, grain buyer, and a brief description of its capacity, etc., may interest our readers. On the ground floor is an immense hopper, capable of holding 5,000 bushels of grain, and at either end of it a set of scales capable of weighing 6,000 lbs., with separate weight bars for wheat, oats and barley, and one for the odd pounds. As soon as a load of grain arrives, the whole load is put on the scale and weighed at one draught, which, it will be seen, is much more convenient than making two or more draughts of a load. If the grain is to be stored upstairs, it is emptied into the hopper from which run two elevators, worked by horse power, capable of carrying up 400 bushels of grain an hour, and spouts in all directions deliver the grain in whatever bin

upstairs may be desired. In the upper story is a mammoth pair of scales, capable of weighing at once 30,000 lbs., or more than a car load; from these will descend a chute or spout, by which it is intended to load the car direct. It will thus be seen that every thing is so arranged as to handle grain in the quickest and most convenient manner. The capacity of the storehouse is 100,000 bushels. It is safe to say that there is no other building of its kind as large or complete, in this section of the country, at least.—[New Era.

Grey.

Mr. Samuel Slemmon, aged 50 years, one of the first pioneers of Grey township, in the county of Huron, died today at his residence in Cranbrook, after a prolonged illness. He acted as Deputy Reeve for Grey township a number of years, and has held many other offices of trust. His loss will be deeply regretted in this vicinity.

OBITUARY.—Mr. John Leslie, for several years a resident of this place, died on Monday, the 17th inst. Early in the spring a growth of suspicious character began to develop itself at the root of the tongue and soon extended into the adjacent parts, when it was observed to be of cancerous origin. Toronto, Hamilton and other places were visited, but medical science could hold no hope to the unfortunate victim, who for several months subsequently suffered extremely, and as this deadly disease progressed he was able to receive but a very insufficient amount of nourishment for several weeks previous to his death. The subject of this notice was a native of Sanda, one of the Orkney Islands, where he was born in the year 1821. He had followed a seafaring life, spending a number of years in the whale-fishery previously to his coming to Canada, ten years ago. He was a man of a quiet, generous disposition, and was much esteemed in the community. He leaves a wife and several sons and daughters to mourn his departure.
