## The Two Best.

The Mic-Mac Hockey  
Sticks.

The "Rex" Hockey  
Sticks.

Made of selected second-  
growth birch. For forwards,  
defence and goal. Natural  
grain of wood running with  
curve of blade. Here are some  
of its good points. 1st—Stiff-  
ness and lightness. 2nd—Will  
not fray at bottom of blade.  
3rd—Keeps its correct shape.  
4th—Correct in pattern and  
weight. 5th—Every stick  
carefully inspected before  
leaving factory. Ask for the  
Mic-Mac sticks and don't ac-  
cept imitations.

Our latest pattern, made of  
straight selected second-  
growth yellow birch. For ex-  
pert players—forwards, de-  
fence and goal. The features  
which recommend it are:—  
1st—Longitudinal striations  
on handle, ensuring firm grip  
and preventing stick slipping  
from players hand. 2nd—  
Double grooved blade, the  
lower one also being serrated.  
This enables the puck to be  
accurately shot for goal and  
strengthens the stick at its  
weakest point. Ask for the  
"Rex" stick.
