A VOICE FROM BRITISH COLUMBIA.—There is a significant commu- cation in the Victoria British Colum- bian of April 30th. The writer pres- ses upon the people of that colony the necessity of annexation to the States. With a depleted treasury, revenue falling off, and the colony suffering from a depression beyond all precedent, what other prospect, he asks, have the people of getting out of their difficul- ties. The writer in conclusion says:—"Were the inhabitants of British Columbia a thriving community, the question of annexation would not be popular; for the people are loyal and patriotic. The force of circumstances alone compels them to advocate a change of nationality. The restrictive duties of the United States, amounting to prohibition, shut us out from the American market, and the policy of commerce, whether intended or not, of our neighbors, would appear to have a tendency to draw matters to one common focus. I am a loyal Briton, and would prefer living under the institutions of my own country, were it practicable. But I, like the rest of the world, of which we are each an atom, would prefer the flag and in- stitutions of the United States with prosperity, to remaining as we are, with no prospect of succeeding as a British colony. It has been tried under different forms and phases for twenty years, and proves a failure."

THE UNEMPLOYED IN ENGLAND.—The Pall Mall Gazette, speaking of the destitution and want in the manu- facturing districts in England, says: "The emigration of Preston operatives to the United States in consequence of the strike, is perhaps the wisest movement they could have adopted. The workmen are merely following the course of the trade. For some years past, America has required less manufactured cotton from us, simply because she has manufactured more for herself. This increase seems des- tined to become permanent, and oper- atives who can find no work in Eng- land are likely to be in demand in the United States. Already the streets of every large town are filled with the unemployed. Nine mills including several of the largest, at Blackburn, are entirely stopped, and others are running short time. The Poor-Law officials are over-burdened with appli- cants for relief, and the appointment of assistant relief officers will be neces- sary. A spread of want, misery, pau- perism, and crime, that we are at our wits end to meet it."

A NOBLE EXCUSE.—The clergy have presided against the liberal re- forms of Spain over three million sig- natures of persons ready to die in de- fence of Catholic unity. The orator Chamberlain appreciated the strength of this fact, and in one of the best of his speeches endeavored to awaken toler- ance rather than bitter hostility. He doubtless spoke with becoming pru- dence in saying to his opponents in the Cortes—"If any hard word, if any inconvenient phrase, if any theory more or less rash, has come from my lips, or has come from these benches, attribute it not to sinister desire, but to the necessity which spirits so long enslaved and forbidden to express their ideas feel of giving utterance to them when they find themselves playing for the first time on the shores of liberty."

DR. CLARKE AND THE MEDICAL BILL.—The Owen Sound Advertiser of last week calls Dr. Clarke, the representative of this Division, severely to account for the part he took in getting the present Medical Bill passed, which gives Homoeopaths and Eclectics five seats in the Council, and places them in other respects on a level with the Allopaths. It also strong- ly opposes his re-election for the Brock and Saugen Division.

THE IRISH CHURCH BILL.—Last night, as we learn by our cable des- patch, the third reading of the Irish Church Bill was carried in the House of Commons by a large majority, 361 voting for, and 247 against it. This gives the Ministry 114 of a majority— certainly a large one on such an im- portant question.

From the returns brought down to Parliament the extent of the shipment of silver purchased by the Bank of Montreal with six per cent. bonds of the Government of Canada, are shown to have amounted to one million of dollars. The bank charged one per cent. on this operation.

The Joint Printing Committee on Monday confirmed the report of the sub-committee in favour of accepting the tenders of Hunter, Rose & Co. for Parliamentary printing, paper and binding for the next five years.

The Church of Scotland Synod commences its sittings in Hamilton this evening. The Synod of the Can- ada Presbyterian meets also at Hamil- ton on the Tuesday following June 8th.

TOWN AND COUNTY NEWS.—Dr. C. A. Jones, formerly of Rockwood, has commenced the practice of his pro- fession in Holstein, Co., Grey.

SOCIAL.—A social gathering of the members and adherents of Knox's Con- gregation will be held in the Town Hall on Thursday evening next.

VELOCIPED EXHIBITION.—Professor Stephens will give a Fantastic Veloci- pede Exhibition in the Drill Shed to- night. Admission is only 10 cents, and besides all the other fun Lawrence's Cornet Band will be present.

SUDDEN DEATH.—On Monday a child of Mr. James Bolton, of Eramosa, aged three years, was put to bed some time through the day apparently in good health, and when visited about two hours afterwards it was found dead. Dr. Herod is holding an inquest.

BUNAWAY.—On Monday evening the team attached to Mr. Gerrie's stage be- came frightened and broke away from the G. T. Station. They ran past the Anglo-American Hotel, turned the cor- ner at the Bank of Commerce, and in running up Wyndham street came in collision with a wagon which they over- turned and damaged. Finally they stop- ped, or were caught at the Wellington Hotel.

DIRECT IMPORTATIONS.—T. J. Day, opposite the market, has received ex- traordinary quantities of goods from Liverpool, several bales and cases of paper hangings, all new patterns and good styles, which will be sold very cheap. Call and examine goods and prices be- fore buying, and be satisfied that Day's Bookstore is the right place to buy your paper.

WELLINGTON, GREY AND BRUCE RAILWAY.—All doubts in regard to the construction of the W. G. & B. Railway are now removed. The contractors, Messrs. Robertson and Worthington, in an advertisement in to-day's paper invite proposals from sub contractors for ex- cavation on the line between Guelph and Fergus. Mr. Joseph Hobson, who has been appointed engineer for the contrac- tors, will at once proceed to lay out the line. He and Mr. Worthington leave for Elora to-night.

ABUSE OF A LIVERY HORSE.—An old ac- quaintance of the Guelph Police Court, Tom Mulvey, made his appearance in Town on Saturday, from Galt, which has for some time been his location. He had a livery horse which he subjected to such ill usage on Sunday and Monday that on the afternoon of the latter day some person gave information by telegraph to the owner Mr. Main. The Chief Constable of Galt was sent up after the erring Tom, and having with the assistance of Con- stable Griffith arrested him they took him home (i. e.) to the lock-up, for the night, and this morning the Galt official bundled him into the buggy and took him away.

THE GUELPH POLICE COURT. Before T. W. Saunders, Esq., Police Magistrate. Tuesday, June 1.—Mrs. Moon was charged by Martin Donnet with assault and battery. The dispute arose in consequence of the plaintiff's driving his pigs through Moon's property in order to reach some place of his own, where he generally kept them. Mrs. Moon sent her boy to tell him not to go on their grounds; O'Donnell is said to have abused the boy, when the lady herself took a hand in, and hit the plaintiff on the head with a stone. Case dismissed with costs.

WRECKS IN THE GULF.—The tele- graph has already reported the wreck of two Quebec traders, viz.: The Margaret, Captain Allen, of Aberdeen, from Sunder- land, with a cargo of coals and coke, and that of the barque Zeon, Captain Brum- of Leith, and sailing from Hull, laden with coal. Both vessels struck on Ceri- bon reef, 15 miles northeast of Cape Des Month, during a hurricane on the morn- ing of Sunday, the 16th ult., and went to pieces within two hours; and, as to re- late, the crew of both vessels perished, with the exception of Mr. James Donnet, master of the Margaret, who succeeded in saving himself, and arrived at Quebec in the schooner Mary, Star of the Sea.—Nineteen bodies have been recovered from the wrecks of the barques Margaret and Zeon near Cariboo Point, and interred by order of the district coroner.

It has already been determined to give an office to Mrs. Dr. Mary Walker, who has been besieging all the Departments and tormenting all the functionaries in Washington for a month past. It is re- ported that the Doctress—who wears pantaloons and carries a cane—is to get a Government appointment in Alaska.

It is said that American young ladies in Paris carry into their intercourse with foreigners too much of their native free- dom of manner, and it is quite a common thing for the French press to take di- rectly or indirectly to the fast manners of young American ladies.

The publishers of the "Hearth and Home" have offered a prize of \$100 for the best song on the fireside and rural attractions of health and home. A Portuguese inventor has recently present- ed to the Cabinet of Lisbon, a murderous little engine firing 800 shots a minute.

REITERATION.

To the Editor of the Mercury. Sir,—The public are not so much interested as to who was or was not a partner at a certain time, who kept the books or who established the agencies, but who was the means of obtaining the prizes at the late Provincial Exhibition, and established the business of the late firm of Bell, Wood & Co. We were this means, as we have already said, and we are extremely obliged to the Messrs. Bell for acknowledging the fact, as they do when they say, "we mean what we presume is all they mean to prove, that Mr. Wood had sole charge of the tuning, which was solely done by himself." The Globe should be given at once to the Benevolent Society, since they now endeavor to raise another issue, or change the manner of the chal- lenge which Mr. McLeod has taken up already.—We can well guess who the man is whom they say they can prove this or that by. Getting him to publish his name in their defence will not save them from giving the \$100 to the poor, as we can soon prove by several witnesses what that personage would do. We certainly consider we have the best end of the argument, and our friends tell us the public seems to think so too. We will exhibit our work at the Provincial Exhibition, and in the parlors of our numerous customers, and will delight the ears of many young and old, despite the silly ravings of our late connection. M'LEOD, WOOD, & CO.

Mr. Editor.—As my name was published in W. Bell & Co's letter of the 31st, I would say in answer that Mr. Wood's authority over me was not self-assumed, as I always knew him to be a member of the firm of Bell, Wood & Co, and more capable of superintending any branch of the work than the Messrs. Bell, he was all they mean to prove, and practical mechanic of the firm. WM. SNOWDON.

Mr. Editor.—As my name was freely used in W. Bell & Co's letter of the 31st, I would say that in reference to me saying that Mr. Wood had no authority over me in that firm, I beg to state that I went into to work with the understanding that Mr. McLeod was to superintend my branch of the work. I stated at the time that I did not wish but one boss, but I considered Mr. Wood had as much authority over me as either of the Messrs. Bell, for he (Mr. Wood) certainly was a partner and in the parlors of our numerous customers, and will delight the ears of many young and old, despite the silly ravings of our late connection. M'LEOD, WOOD, & CO.

DR. J. BRIGGS' ALLEVANTOR. The great Catarrh, Headache, Neuralgia and Universal Pain Remedy is warranted to possess any known discovery for the instantaneous relief and rapid cure of any conceivable form of pain. Used internally and externally it never fails.

A little of BRIGGS' ALLEVANTOR applied to the head will instantly relieve Nervous Headache, Applied freely to the Sides 1 to 2 teaspoonfuls in half glass of water, and take one to four swallows, inhale from the bottle, hold the head with the Alle- vantor, and a cure immediately follows. One to four swallows relieves Dyspepsia, Heartburn, Palpitation, Acidity of the Stomach, Flatu- lence, &c. A small quantity of the Alle- vantor diluted and snuffed up to the nostril, then gargle the throat, and take one to four swallows of the Alle- vantor, and all tendency to Consumption are immediately relieved with the Alle- vantor. A few applications of Alle- vantor cures the most severe Neuralgia, the worst forms of local pain, Rheumatism, &c. The Throat when sore and inflamed is relieved at once by gargling with diluted Alle- vantor, and taking a swallow or two of the Alle- vantor.
