

### Wage-Workers' Symposium

says the American Federation of Labor in its instructions to organizers: "Wherever possible mass-meetings should be held, with the co-operation of the central body, for the purpose of awakening general interest and advocating less hours." How many affiliated unions are carrying out this policy of publicity?

Historians who recorded military deeds and legal transactions which in later days were considered work for slaves of noble blood and would not mention so mean a thing as a slave counts largely for the scarcity of written record in regard to labor in ancient times. Compelled by the darkness of this unwritten age of slavery which has lasted indefinitely longer than seven thousand years of events we catch an occasional glimpse, we find the great philosopher Aristotle acknowledging in his startling prediction that "relax labor may become obsolete." So again Robertus of our times, looking at and judging the organized resistance of laboring

men, predicts that society will out-grow wages or competitive slavery.

Here are two seemingly parallel cases: the one representing affairs 350 years before Christ, the other taken from the actual conditions before our own eyes, in both cases, given against the stubborn will of the ruling wealthy by two of the profoundest and most daringly honest philosophers the world has produced. At the time Robertus von Jagstow made this startling prediction, Germany under Bismarck, was stifling every effort of press, legislation, trade-unions and Socialists, to give the dreaded fact to the world. The freedmen at the time of Aristotle were forming an innumerable phalanx of strength.

It is not hard for students of sociology to understand why in ancient times no mention was made by historians of the wonderful organizations which then existed. But for historians necessarily recorded for the use of government and for the habit which exists today, looking at and judging the organized resistance of laboring

men, predicts that society will out-grow wages or competitive slavery.

**Eczema Must Yield to THE WONDERFULLY SOOTHING HEALING INFLUENCE OF DR. CHASE'S OINTMENT**

There is one thing you can depend on Dr. Chase's Ointment to do every time, and that is to cure eczema. There is no more severe test to which an ointment can be put, and because Dr. Chase's Ointment triumphed over eczema it has become the standard ointment.

When another ointment is praised it is said to be as good as Dr. Chase's. And this illustrates the high position held by this preparation.

Mrs. Oscar Vancott, St. Antoine, Sask., writes: "I have found Dr. Chase's Ointment to be a permanent cure for eczema and other skin diseases. One son while nursing broke out with eczema, watery sores all over his head and around the ears. Many salves were prescribed to no effect. The child's head became a mass of scabs and he suffered agony untold. He became weak and frail, would not eat, and we thought we would lose him.

"Provisionally we heard of Dr. Chase's Ointment and it soon thoroughly cured him. He is seven years old now and strong and well. An older boy was also cured of eczema by this Ointment and we hope more people will learn about it so that their poor little ones may be saved from suffering."

Do not be satisfied with the experience of others, but put Dr. Chase's Ointment to the test when occasion arises. Try it for chafing and irritation of the skin, for chapped and cracked hands, for phibians and frost bites, for sores and burns. It is delightfully soothing and healing. 50 cts. a box, all druggists or Edmondson, Patent Co., Toronto. Write for free copy of Dr. Chase's Recipes.

### Toilet and Medicinal Preparations Are Compounded by Expert Chemists

**Who Compounds Your Medicines?**

When your physician gives you a prescription you would scarcely risk having it compounded by a grocer or a baker, even if you were sure they had the right drugs. You insist on your druggist's skilled dispensing.

If you did not protect yourself in this way the laws of the country would protect you, for they demand that physicians' prescriptions be dispensed by physicians or qualified druggists only.

It is not equally important to know that the household remedies, such as laxatives, cough syrups, and tonics, and the toilet preparations such as tooth paste, which you use so frequently, are also compounded by expert chemists?

When you use NA-DRU-CO medicinal or toilet preparations you have the positive guarantee of one of the largest wholesale drug firms in the world, the National Drug and Chemical Company of Canada, Limited, that each one has been compounded by expert chemists only.

This is just where NA-DRU-CO Cascara Laxatives, NA-DRU-CO Liquorice, Linsed, and Chlorodyne Cough Syrup, NA-DRU-CO Tasteless Cod Liver Oil Compound and everything else on the NA-DRU-CO list are pre-eminently better than mixtures at present flooding the market. They are compounded by men who know.

**Some NA-DRU-CO Preparations**

Camphor Ice Cream	Grasshopper Toilet Cream	Talcum Powder	Tooth Paste	Tooth Powder	Baker's Tablets	Carbolic Salve	Cascara Laxatives (7 Tablets)	Cod Liver Oil Compound	Tasteless (2 Sizes)
Diarrhoea Tablets	Dr. Chase's Ointment	Herb Tablets	Hot Water	Pile Ointment	Respiratory Cure	Sugar of Milk	Stomachic Tablets	Teething Gum	White Liniment

**Preparations**

We are prepared to furnish to any physician or druggist in Canada, on request, a full list of the ingredients in any NA-DRU-CO article. Ask these men, who are men of standing in your community, and best qualified to tell you, all about NA-DRU-CO preparations.

If any NA-DRU-CO article you buy does not prove entirely satisfactory return it to your druggist. He has our authority to refund the full purchase price and charge it to us.

You can get any NA-DRU-CO preparation anywhere in Canada, for if your druggist should not have it in stock he can get it within two days from our nearest wholesale branch.

# SOUTH AFRICAN SCRIP

## An Investment in South African Scrip at the Present Time Will Mean a Good Thing for You Financially

Scrip is practically at its lowest point at present. Why? Simply because the people do not realize the situation. If you will only stop and think what scrip means to the intending settler, then, you will perhaps see the reason.

With only some 2300 available scrips on the market and a weekly consumption of over 70, and 20 months in which to take them up, you will easily see how long the supply will last.

A pre-emption (160 acres) costs the homesteader \$3 an acre or \$480. A South African Scrip gives you 320 acres. Figure this at \$3 an acre and see the result, \$960. The conditions of settlement are practically identical. Then why should scrip only be at the present figure of \$800? It is worth every dollar that a pre-emption is worth. Therefore, it is only reasonable to suppose that an intending settler will take up a scrip in preference to a homestead or pre-emption at present because he still has the privilege of taking up a homestead. After his scrip is "proved up" then would follow his pre-emption, if he so desired.

Thousands of people are taking up land in Manitoba, Saskatchewan and Alberta every month. If these settlers can only be shown the advantage of the scrip to them they would all be taken up within the next two or three months.

Prices will steadily advance from now on. The supply is limited. This alone will force the price up to at least \$960 or \$3 an acre, the price of Government land. The average price for farm lands in the three provinces today is say \$10 an acre. Why should these 320 acre warrants not be worth \$3200? Split this in two, say \$1600. Is not the investment good?

Think this over and buy before it's too late for your present means.
