LEVENTH YEAR—No. 177

MILLION DOLLARS DISBURSED YESTERDAY IN MEETING DELINQUENT CITY OBLIGATIONS

City Treasurer Puts in Busy Day Signing Cheques and Sending Out Money

Comptroller Issues Statement Showing Division of Regent Big Loan

WEDNESDAY was a busy day for City Treasurer Burns and more than \$1,000,000 was disbursed.

From his office until the "whistle" showed for knocking off work, he signed and dispatched cheques to those who have been waiting until the city's finances were adjusted.

"It is a great relief to get this off my mind," said Mr. Burns as he finished a batch of cheques for contractors and others. "I never should have occurred in the first place. What was finally done is what should have been done at first, and saved all this trouble."

Yesterday morning the commission received Comptroller Wood's tabulation of the various bylaws, showing the various balances remaining, necessary expenditures, total that should be borrowed on each amount available for expenditure, etc.

This table shows a total of \$2,562,270 distributed among eight bylaws, covering sewers, paving, sidewalks, widening streets and grading. Bylaws not spent, \$1,758,237.74 estimated amount needed for remainder of 1912, \$1,062,822.29; total that should be borrowed against the several bylaws, \$1,874,582.23. Amount that should be borrowed for work on general bylaw pledged to bank, \$32,000. This item includes No. 1, for use on asphalt plant, term of 15 years, total \$50,000, borrowed from bank \$20,000. Bylaw 1285, addition to city assets, term of 15 years, total \$12,000, borrowed from bank \$12,000, making a total of \$32,000. Going further in the tabulation, the comptroller shows that there is available for expenditure in January, 1912, \$2,493,854.87, amounts already expended during 1912, \$786,456.23; holdbacks, 1912, \$68,284.71; expended, \$191,817,610.92; total expended for which no bonds have been sold, \$227,709.92.

The table setting forth the standing of the bylaws and conditions governing expenditures is as follows:

Local Improvement Bylaws, 1912

Bylaw	Term	Amount	Balance Not Spent	Estimated Amount for 1912	Total That Should be Borrowed	Amount Available for Expenditure in January, 1912	Amount Already Expended	Holdbacks, 1912	Total Expended for which no bonds have been sold

SUMMARY: Amount that should be borrowed for work on general bylaw pledged to bank\$32,000.00

PROGRESSIVE LEAGUE MEETS TONIGHT IN PAGET HALL

President Tregillus Outlines Some Matters That Will Come Up for Discussion

Secretary to be Appointed and Executive Bought Up to Its Full Quota

President W. J. Tregillus of the Progressive League, wishes to draw particular attention to the meeting to be held at the Paget hall tonight. To the Albertan he said the meeting would be an important one as in addition to the matters laid over from settlement of last meeting, a secretary would be appointed and the executive made up to its full number, some of those first appointed being unable to act.

Mr. Tregillus said he was pleased when the meeting was called in the league's work, which was much more general than one not connected with the city's affairs. The meeting revealed the fact that many were being brought into touch with phases of civic government which were new to them, and that the league could profitably direct its attention to educational work along civic lines.

At the meeting Mr. Geo. Ross brought up the question of "proportional representation" in connection with the abolition of the ward system and an enquiry since the meeting show this is quite new to several.

These are some of the questions which will be brought up at tonight's meeting and will make interesting discussion.

In reply to the question as to the league's intention with regard to a slate for the coming election, Mr. Tregillus said: "This matter has not been officially dealt with, but from what one can gather from discussions of individual members, that will be the first task to which the league will apply itself, and in addition to men of ability and capacity, men of high moral standing will be particularly sought out."

The members of the league as far as I can judge are of Alderman Riley's opinion, that the best man Calgary can obtain for mayor will be none other than Calgary and its surrounding suburbs should be united to attract the best and particularly in respect to the league's determination to have not only an efficient business man, but one who is known to be incorruptible and who has a strong desire to put Calgary on a higher moral plane.

"I should be glad if you will make it known that the league welcomes women and that both men and women are eligible for membership. At an executive meeting called last Friday evening it was not enough for a quorum so we have not arranged for the special meeting requested to meet the women of Calgary. This will be done early but they will be welcome to attend tonight's meeting and I hope they will do so in large numbers."

Grain Growers Throw Down Gauntlet To Canadian Manufacturers In The Matter of British Preference

Winnipeg, Sept. 25.—It is expected that there will be a most interesting discussion at the annual convention of the Canadian Manufacturers' association tomorrow morning on the subject of reducing the tariff on British imports. The discussion will be precipitated by the following letter which the Grain Growers' Guide sent to President Curry tonight and which will reach him tomorrow:

"The Western grain growers are anxious to know if the Manufacturers' association will join hands with them in an effort to bind Canada closer to the Mother Land by urging the government to reduce the tariff on British imports to one-half that charged on American imports with a view to complete free trade with the Mother Land in ten years. The grain growers feel that this would be a tangible form of showing their patriotism and would develop a much greater trade with the Mother Land and thus strengthen the ties of Empire and show the world that Canada's loyalty to the Mother Land is deep and abiding and not merely words. It would also show the world that Canada stands behind the Mother Land to uphold the traditions of the Anglo-Saxon race and keep the Union Jack in its proud position it has held for a thousand years. Such an action would also be undoubted proof that Canada has no desire for political union with the United States. Would you kindly bring the matter before your annual convention, now in session at Ottawa and ascertain if the manufacturers present are willing to point hands with the grain growers in this great Imperial scheme?"

ANTICIPATING TROUBLE IN HILSTER, SCOTCH AND IRISH TROOPS WILL OCCUPY BELFAST

Volunteer Organizations Are Enrolled to Assist Civil Authorities in Maintaining Peace; Speakers Say Government Has Not Nerve to Order Out Army

The Streets of Belfast Are Being Gaily Decorated for Saturday, There Has Been an Enormous Sale of Union Jacks.

BELFAST, Sept. 25.—(By telegraph.)—The Royal Irish Rifles, already stationed here, are confined to barracks in readiness for emergency.

More than a thousand members of "Young Citizen Volunteers of Ireland" were enrolled tonight. The new organization is to assist when called upon by the civil authorities in the maintenance of peace.

The demonstration at Portadown today was one of the most remarkable of the campaign, owing to the display of armed force and the enormous number of Orangemen and Unionists who assembled to greet Sir Edward Carson and other Unionist leaders. Sir Edward declared that they were performing the obsequies of Home Rule.

Frederick E. Smith, M. P. for Liverpool, expressed the opinion that the battle was already won. He added:

"The government, even if it has the wickedness, wholly lacks the nerve to order the British army to occupy Belfast."

The streets of Belfast are being gaily decorated for Saturday. There has been an enormous sale of Union Jacks.

REQUEST OF COUPLE IN SUICIDE PACT IS IGNORED

Left Note to Relatives Asking That They Be Not Separated in Death

Remains of Grace Burrell Inthout Interred in Calgary Cemetery Yesterday

Sorrowing Father Meets Old Playmate of His Daughter in Calgary

THE last request of "Bully" Inthout that he be buried with his wife was not observed by the relatives. The remains of Grace Burrell were interred in Calgary cemetery yesterday morning. The body of the husband will be shipped to his relatives in Paintsville, Kentucky.

The wish that they be buried together was expressed by Inthout in his last letter, written at the Queen's hotel just before the culmination of their suicide pact, but the relatives of the dead man telegraphed instructions to Graham and Buscombe to ship the body of Inthout to his old home.

There is a great dread, the correspondent says, of the Japanese influence in the Pacific. Though little is said on the subject there is a genuine and strong feeling that Australia should be ready to play her part with New Zealand and the United States in policing the Pacific. The Australians are willing to bear taxation for these purposes. The smouldering embers of patriotism which led the Australians to flock to the Boer war have again been recently fanned into a fierce flame.

LET THE DOMINION STAND THE LOSS OF HUDSON'S BAY ROAD

Winnipeg, Sept. 25.—"I am of the opinion that the Hudson Bay railway undertaking is of so risky a nature and its ultimate success so problematical that it should be rejected by the Dominion government until its real value has been demonstrated," said Sir Donald Mann here today.

"I know," he added, "when the Canadian Northern started we had the choice of going north to the bay or east and west. We chose to go east and west and I think the result has justified our judgment. But you never can tell and the result is uncertain. Undoubtedly there will be a large fine from the north and valuable mineral deposits may be found along the right of way as happened in the case of the Ontario government road, making the line of incalculable worth. Add to this that there is no other route considered through traffic, freight and passenger, and the element of risk is materially reduced. But if I think that the right course is being pursued."

Sir Donald belittled the suggestion that so long a line could be electrified profitably when traffic would be so scanty.

Going on to discuss the situation of the Hudson Bay railway, Sir Donald said that the Port Mann would be to Vancouver what Transcona is to Winnipeg, namely that freight would be largely handled there but the company had all along planned their passenger terminals for Vancouver. Port Mann would be the ocean terminus and in this connection he said that at present the project of a line of steamers via Pacific to Europe had not been seriously considered. Construction work on the Peace River was being pushed but the west coast of the continent. One hundred engines and crews were being taken off construction and put on the grain traffic.

R. B. BENNETT SEES CLOVEN HOOF AND FORKED TAIL

Pays His Respects to the Liberals Who Had the Temerity to Win in Saskatchewan

Says Will Expose Methods by Which Cross Was Elected on Floor of Federal House

Promises to Descend on the Attorney General From the National Capital

DECLARING that the Grand Trunk Pacific railway supplied free trains and free tickets to be used by unqualified voters in the city of Edmonton to vote for C. W. Cross at the recent elections, that city and that the government was a victory by crooked methods and stuffed voters' list, which he declared he would expose on the floor of the federal house, R. B. Bennett, M. C., M. P., at Paget's Hall last night made his first political speech in Calgary since his election to the Dominion house.

The meeting was called for the purpose of organizing a Young Men's Conservative association for Calgary. The speaker, after paying his respects to Mr. Bennett, said: "The last was crowded to the doors."

"I will give them good time and fair play," said Mr. Bennett. "The Grand Trunk Pacific railway supplied free trains and free tickets to be used by unqualified voters in the city of Edmonton to vote for C. W. Cross at the recent elections, that city and that the government was a victory by crooked methods and stuffed voters' list, which he declared he would expose on the floor of the federal house, R. B. Bennett, M. C., M. P., at Paget's Hall last night made his first political speech in Calgary since his election to the Dominion house."

DECREASE FREIGHT RATES IN WESTERN CANADA

Manufacturer Declares That Intercolonial Should Be Extended to Coast

The Question is Most Vital One in Canadian Politics

Technical Education Was Discussed by the Manufacturers

Ottawa, Sept. 25.—Freight rates was the most interesting theme at the meeting of the Canadian Manufacturers' association today. R. D. Fairbairn, of Toronto, made a vigorous attack upon Canadian railroads.

"The rates to the west," he said, "are based on the way only. It is a well-known fact that it costs as much to send goods to, say, Saskatoon, or any other place in the west, from the east as it does to Australia. The railroads can carry freight at a good deal less rate than at present. The whole object of the railroad companies seems to be to increase their rates all along the line."

Mr. Fairbairn declared that the Intercolonial railway, which is a much more important asset to the Canadian government, should be extended to the coast. The tariff in many cases is not a factor at all. The Canadian government should have a good coal-oil road through to the coast.

"We have had a little experience in governmental and municipal ownership and it has met with a good deal of success."

Mr. Fairbairn's expressions were readily endorsed in many respects by Mr. Edmond, of Toronto.

Technical Education.

Some of the advantages of technical education especially can derive from a system of technical education were outlined by Dr. James Robertson, chairman of the technical education committee.

He told the delegates that Cincinnati and Pittsburgh, Mass., were doing to apprentices and even superintendents and engineers in factories. In some cities the manufacturers have collaborated with educational experts on a co-operative educational scheme. In Cincinnati, for instance, the student worked at the factory in the afternoon, and then goes to school for a week, during which time, his employer pays his wages at the rate as if he were in the shop. The teachers, too, Dr. Robertson declared, that the mathematics and other subjects taught will be closely related to the particular work the student is following. No irrelevant matter is taught.

Canada Far Behind.

Dr. Robertson told what Edinburgh, Scotland is doing, and in comparison showed how far Canada is behind in the matter of technical education. Edinburgh has a population of three hundred and sixty thousand. In the evening continuation classes, 2,000 young people are attending and learning the eighteen different trades taught there eight per cent of the pupils at these schools are youths who went straight from the public school, the fees of which are six months, but they are within the reach of the very poorest.

The cost of the upkeep of the classes last year was about \$75,000. Of this amount the fees of the students paid were \$10,000. The government of Edinburgh government 88 per cent, and the ratepayers of the city balance. No one is compelled to attend the classes. The movement started seven years ago, and Dr. Robertson declared that when future generations look back in history they will pick this work out as the dawn of a new era.

The election of officers will take place in the morning, and it was announced tonight that Mr. R. S. Gourlay of Toronto would be the new president, while C. B. Gordon, president of the Dominion Textile company, Montreal, will be the new vice-president.

STREET CAR EXTENSION BYLAW CARRIES

City of Calgary Receives One Mile of Electric Railway Line Gratis

Bylaw No. 1359, empowering the Southeast Calgary Corporation to construct one mile of electrical railway from Ogden Station to the southern city limits, carried by a vote of 199 to 34 yesterday.

Through the operation of the city of Calgary is doing, and in comparison showed how far Canada is behind in the matter of technical education. Edinburgh has a population of three hundred and sixty thousand. In the evening continuation classes, 2,000 young people are attending and learning the eighteen different trades taught there eight per cent of the pupils at these schools are youths who went straight from the public school, the fees of which are six months, but they are within the reach of the very poorest.

The cost of the upkeep of the classes last year was about \$75,000. Of this amount the fees of the students paid were \$10,000. The government of Edinburgh government 88 per cent, and the ratepayers of the city balance. No one is compelled to attend the classes. The movement started seven years ago, and Dr. Robertson declared that when future generations look back in history they will pick this work out as the dawn of a new era.

The election of officers will take place in the morning, and it was announced tonight that Mr. R. S. Gourlay of Toronto would be the new president, while C. B. Gordon, president of the Dominion Textile company, Montreal, will be the new vice-president.

GREEN SHOULD BE THE MINISTER OF MINES FOR CANADA

Associated Boards of Trade Hit Right Out and Make Recommendations

Green is the Member for Fernie and a Miner for Twenty Years

WELSON, B. C., Sept. 25.—Declaring in a resolution that the time has arrived when the economic importance of the mining industry and its safe and proper control demand the creation of a portfolio of minister of mines, the executive of the Associated Boards of Trade at a meeting yesterday afternoon which was attended by representatives of mining men and others interested in the industry from many points in Eastern and Boundary went emphatically on record with the opinion that Robert E. Green, member for Kootenay, was the most fitting person to fill the position. Mr. Green's twenty years' residence in British Columbia, his close association with the industry and the valuable knowledge which he possesses regarding the problems and difficulties with which mining men have to contend, were advanced as some of the reasons for his appointment to the suggested new portfolio.

Ottawa, Sept. 25.—The death of Sir Richard Cartwright creates the eighth vacancy in the senate. Four of these seats were held by conservative members, Senator McDonald, of Sydney; Senator McKay, of Toronto; Senator Miller, of Halifax; and Senator Sullivan, of Kingston. The four liberal vacancies are in the seats occupied by Sir Richard Cartwright, Senator Wm. Ross, of Halifax; Senator Corneil, of Digby; and Senator Wilson, of St. Thomas.

There are now in the senate 59 men, who are appointed by liberal governments and twenty appointed by conservative governments.

By filling the eight existing vacancies, the government will have a representation of twenty-eight and will reduce the liberal majority in the upper house to thirty-one.

It is probable that this majority will be further increased within the next two years by the enlargement of the senate representation from the west. The government now has authority to name two more senators from Manitoba and will probably bring in a bill this session increasing the representation of Saskatchewan, Alberta and British Columbia.

Since taking office the Borden government has appointed five senators. The liberal leader in the senate will be selected by the liberal senators. It will probably be Senator Dandurand.

PERUVIANS SET UPON AN EX-PRESIDENT

A Furious Crowd Mobbed Augusto Leguia as He Was Going Home

Lima, Peru, Sept. 25.—Ex-President Augusto Leguia was mobbed by a furious crowd late last night while proceeding to his private residence from the city hall.

The demonstrators shouted, "you will be sent to jail and not home," and obliged the ex-president to take refuge in the University club. Later, on, Senator Leguia was escorted to his house by policemen who remained there on duty.

"Now they are in Edmonton," continued Mr. Bennett, "sitting up all night and waiting for an amendment to the act in a way that they will be able to win the election and let the crooks get in their work."

Continuing, Mr. Bennett said the conservative fight had just commenced and the conservatives would not permit him to get in their dirty work and they would have one similar to the one at election.

"Now they are in Edmonton," continued Mr. Bennett, "sitting up all night and waiting for an amendment to the act in a way that they will be able to win the election and let the crooks get in their work."

Continuing, Mr. Bennett said the conservative fight had just commenced and the conservatives would not permit him to get in their dirty work and they would have one similar to the one at election.

ST. PAUL'S EXTENDS CALL TO REV. A. O. WISHART OF BRUSSELS, ONT.

Brussels, Sept. 25.—St. Paul's Presbyterian church, Calgary, has extended a call to Rev. A. O. Wishart, pastor of Melville church, Brussels, Ontario. The stipend offered is \$2,500.

The call to Rev. Wishart is necessitated by the resignation of Rev. Hillecks, who expects to engage in business.

WHAT THE GREAT WEST DID YESTERDAY

In Edmonton: The captain of the steamer Slave River states that there is very heavy traffic on Lesser Slave lake and the Athabasca river. Excellent crops have been safely harvested around the lake and Peace river.

The city of Edmonton receives an offer from the oil company boring at Pelican Rapids on the Athabasca river to supply the city with natural gas. The company now has an enormous flow, with seven hundred pounds pressure. The plan would entail piping the gas one hundred and seventy miles to the city.

In Victoria: Building permits for the past fiscal week totalled \$118,000, an increase of \$10,000 over the corresponding week last year. Bank clearings for the same week increased \$120,000.

In Winnipeg: Building permits for the year to date are over \$17,000,000. A permit has been issued for an apartment block to cost sixty thousand dollars.

In Regina: Twenty-eight Saskatchewan farmers have made village and ten rural municipalities have been organized this year.

In Calgary: Construction starts in the immediate future on a steel and concrete iron works.

DEATH KNELL OF AEROPLANE IN WARFARE SOUNDED; COL. SAM HUGHES IS OPPOSED TO MACHINE'S USE

LONDON, Sept. 25.—Colonel Hughes has been having an exceptionally busy time during the last week of his stay. When he is at the Savoy hotel, he had a dozen cables to his rooms, the number of invitations received being overwhelming.

He told the Canadian Associated Press representative today that he had no use for military aeroplanes.

"You will get just as good results by climbing a mountain or church steeple," he said.

At an army council dinner the other night, where all Canadian officers in London attended, Col. Hughes responded to the toast of the overseas forces. Coventry and Newmarket have been visited. On Sunday Col. Hughes visited Paris, and yesterday met several interested in university inter-change of students. Several officers are now in Scotland but Col. Hughes is studying the territorial problem here and Col. Harston is at Woolwich, studying ammunition problems here.

Ulster Unionists have approached more than one of the party for expressions of sympathy and encouragement, but those approached differed in their view of such matters. On Friday Col. Hughes dined with Lord Roberts and over the week-end will be the guest of Lord Selborne in Hampshire.

FAST AUTOMOBILE KNOCKS MESSENGER BOY DOWN

R. E. Morrison, a messenger boy, living at 2068 Ninth avenue east, and employed by Dufferin & Co., was knocked down by an auto yesterday afternoon on Eighth avenue and badly injured.

REMAINING OF GRACE BURRELL INTHOUT INTERRED IN CALGARY CEMETERY YESTERDAY

The remains of Grace Burrell Inthout were interred in Calgary cemetery yesterday morning. The body of the husband will be shipped to his relatives in Paintsville, Kentucky.
