the market was a bad one for everything but hogs. There were 87 carloads of stuff on the boards, which included 102 sheep and lambs, 1,950 hogs, 20 milch cows and springers and 127 calves. In export cattle trade was rather dull, and prices were hard to push up because of discouraging reports from the old country. Quantities of American cattle are being thrown upon the market, and are practically unsalable. A little liveliness has been caused on the Toronto market by the demand for cattle to go to France and Belgium. Prices paid at the western cattle yards today were not high, ruling at from 3½ to 4c per 1b for carloads of good cattle. In butchers' cattle there is hardly any demand. Too much stuff is coming in, and a great deal of it is not of extra choice. These figures show a decline of about to the prices were not operating as a result of the prices which are being paid by the Frenchmen for good bulls being too high. For light stockers there is really no demand, quotations for them ruling nominal, at from 2½ to 2½ per 1b.

In sheep and lambs, 1270 much lambs, 1287 Charles Tupper characterized an increase in the public debt, incurred to deepen the Welland Canal, as "this great calamity, this great disaster." At that time taxation was low, and the annual expenditure was under \$24,000,000. Now the taxes of the people have been greatly increased, the debt has been added to since the men now in power took hold by ever \$100,000,000, and the annual expenditure is over \$38,000,000. In face of all this, and of his former declaration that it was a "great calamity," a "great disaster" to eyen increase the debt \$3,000,000 for needed improvements in the country's many demand. The provention of the prices which are being paid by the Frenchmen for good bulls being too high. For light stockers there is really no demand, quotations for them ruling nominal, at from 2½ to 2½ per 1b.

In sheep and lambs, the market was overstocked, and as a result prices were low. Good grain-fed yearlings, with the wool on, were quoted at from 4 stocked, and as a result prices were low. Good grain-fed yearlings, with the wool on, were quoted at from 4½ to 5c per lb, and found slow sale. Spring lambs were in large supply, there being over 70 head on the market. No more are wanted for some days. Good sheep sold today at 3c per lb.
