> "A \$50,000 bullet will stop William Rockefeller the minute he sets foot upon this property." The threat is roughly printed, and all the many signs are evidently by the same hand. The reference to the value of the bullet is not understood, and is no doubt a private conceit on the part of the man who seeks to intimidate the magnate. The signs have all been put up within a week.

He made no comment upon the threat, of which, it was learned later, he already knew, but said that he had made no plans and did not know when he would go to Bay Pond. Further inquiry disclosed that a hotel proprietor of Malone left here on Fri-
