A FRIEND IN NEED.

How Two Swindlers Were Put to Flight

by a Toronto Drummer.
From the London Free Press. Allan McGregor, a commercial traveler of Toronto, was waiting for a train at the Chatham depot last week when he saw a bluff old man dressed like a farmer walk into the waiting room, accompanied by two middle aged chaps with an air of prosperous business men. There was nothing in the trio to excite more than asual notice, unless it was the excessive casual notice, unless it was the excessive interest that the younger men seemed to have in their companion. McGregor followed the men into a coach which contained half a dozen passenger, and dropped into a seat near the heater. Across the aisle, and four or five seats forward, one of the middle good men arranged two seats facmiddle-aged men arranged two seats fac-ing each other for himself and friends, and the three engaged in a quiet conver-

McGregor paid no attention to them, but went on reading his paper until the train was within a mile of Tecumseh, when, casting an eye backward, he saw the old man counting over a big roll of bills. The man counting over a big roll of bills. The two younger men were watching him with great interest, and from their actions McGregor jumped to the conclusion that they were working a confidence game. The honest drummer did not look for conductor or brakesmen, but swung his 225 pounds of bone and muscle alongside of the old man and told him to put his money in his pocket if he didn't want to lose it. With a volley of oaths the pair jumped into the aisle ard threatened McGregor with personal violence if he did not mind his own business.

"You'll do me up, eh?" retorted the drummer as he pulled the bell rope and proceeded to take off his coat. But he had hardly uttered the words before the festive pair made a break for the platform, and as the train slowed up they jumped to the ground and fied. Walker's motion for a third reading of the by-law was carried on the following division:

The old man was bewildered at the turn affairs had taken and was at first highly indignant at McGregor for interfering with him and his friends. When the matter was explained, however, he was profuse in his thanks, and told how he had met the strangers at a hotel in Chatham. They claimed to be cattle dealers on their way from Buffalo to Detroit, and on the train they had asked him to cash a check for \$500, promising to redeem it next day in \$500, promising to redeem it next day in and was on the point of granting their request. The old man refused to give his name or tell where he lived. He offered McGregor \$50 as a reward for what he had done, but the latter declined to take anything.

Former Affects the Seats.

LONDON, Dec. 1.—In the house of comons to-day, Gladstone presented the redistribution bill. It provides that all towns of less than 15,000 inhabitants and small boroughs be merged into counties, and that all towns of 50,000 inhabitants be entitled to one member. England will possess six additional members. The memberships of Wales and Ireland are unchanged. Scotland will have twelve additional members. London will have 37,

Liverpool 6, Glasgow 4, Birmingham 4, Manchester 3, Yorkshire 16 and Lancashire 15 additional members. Gladstone stated the government had received assurance of the passage of the franchise bill by the house of lords.

The liberal members of parliament generally approve the redistribution bill. Courtney (advanced liberal) resigned the secretaryship of the treasury in consequence of the omission from the bill of the principle of minority representation. Parnell feels confident the result of the new grouping will strengthen his following but before giving the bill his support will hold a conference with his party. The tories give the bill a cool adhesion but will fight the details in committee.
