menting on the vote, says the United States farmer "favors reciprocity with Brazil because that country wants bread and we have it to sell. He opposes reciprocity with Canada because she is a grower of produce and would become our rival in our own markets. Reciprocity with Brazil opens a weights; about 1 1-16 miles. market and prices rise. Free trade with Canada gluts the market and prices fall."

Referring to the McKinley Bill, he adds:

G. Kennedy's ch g Johnny Hunter, a, by Clear Grit—Lady Ligatfeet, 159. (Priest)
F. A. Campbell's b g Tam O'Shanter, a, 159

(Dunlap) farring to the McKinley Bill, he adds:

the first gleam of hope that has

it is the manufacturers and speculators J. R. Martin's b.g. Dom Pedro, aged, by Brazilwho are booming reciprocity with our northern sisters." There it is. The very antipathy of the American farmer to reciprocity is the ning reciprocity with our northducts would benefit the Canadian farmer. No one in Canada doubts or questions that. But while the American farmer opposes it, for Master Percy Brown of the Torontos, there is no chance for securing it. But it is claimed here that we could get a full and easily. They finished as follows: free reciprocity in spite of the American farmers if we set about it. So we could.

Bicycle race—For boys 15 years and under first prize \$8, second prize \$4. If Canada were willing to throw down Percy Brown.. tariff from end to end and let New York Tribune said the other day, "let the McKinley Bill hold sway from the Gulf of Mexico to the Arctic Sea'—if Canada were willing to do that, then the American famous property of the Canada were willing to do that, then the American famous property of the Canada were willing to do that, then the American famous property of the Canada were willing to do that, then the American famous property of the Canada were willing to do that, then the American famous property of the Canada were willing to do that, then the American famous property of the Canada were will be a supplied to the canada wer might protest against it in vain. He might able amusement for the onlookers as well as ery out that such a reciprocity was unfair the children driving and riding them. It to him in that it placed the agriculturists of this Dominion in competition with him, but he would be silenced with the word that where the Republic as a whole would lose one dollar in Exhibition Notes. that way it would gain ten in others, besides shaping things to suit the Monroe doctrine. The American farmer might still grumble at

are those of self-preservation, and are identically similar to the reasons that cause us to are those of self-preservation, and are identically similar to the reasons that cause us to
oppose full and free reciprocity. He
thinks the first proposition would
bring our agricultural produce into
violent competition with his own; we
think the latter proposition would stiffe in
whole, or in part, every Canadian enterprise
save that of agriculture. The manufacsave that of agriculture is only natural that around the Mercer

The exhibit is attready so well known to the form arranged samples of the design and arrangement generally are excellent. The sale of making its acquaintance. The exhibit is a stready so well known to the form arranged samples of the design and arrangement generally are excell save that of agriculture. The manufacturers and speculators of the United States may well boom reciprocity, for they believe that it would transform the greater part of Canada into one vast farm, cultivated by a few men and a lot of machinery. And it would be American machinery. If population is desirable reciprocity is undesirable, for it would inaugurate such an exodus as this country has never known.

Reciprocity would sacrifice everything that with the leading instruction the world; and deserve the praise accorded them. They are constructed in ene of the best appointed factories in the country, by mechanics who have practised their art at the benches of the famous factories of America and the Continent and of material selected by the experience of a quarter of a century. The Company is not endeavoring to turn out a piano to meet the demand for a cheap trashy instrument with imitation cases and such like, but to supply those who are willing to pay a fair first-class Reciprocity would sacrifice everything for an immediate and transitory gain to agriculture, and these older provinces, which are now practically under full cultivation, would lose half that population which exists by other arts than tilling of the soil. Those who find sustenance in our cities in the thousand branches of manufacture would have to scramble for work in the few shops that could survive the competition of the millionaire cembines across the way. And those combines would suffer downright loss for years, if necessary, in order to gain undisputed consequences of the survive to the competition of the millionaire cembines across the way. And those combines would suffer downright loss for years, if necessary, in order to gain undisputed consequences. Reciprocity would sacrifice everything those who are willing to pay a fair first-class ssary, in order to gain undisputed control of our market. They would recoup mselves after they conquered. And those who were unfortunate in this scramble, and those who grew up, and those who were displaced in the country by labor-saving inven-

but the one of agriculture.

with a tendency to belittle anything Canadian or to under-rate our ability to compete in our own market against American manufactures. It would be an unequal conflict turns with half the labor of any other turns with half the labor of any other wringer, because it is provided with purchased gear and cogs will go out of mesh or out of order. A rug, if necessary, can be such odds. In time we will be able for it such odds. In time we will be able for it and Canada will meet the United States in home markets and in the wider markets of

The Practice of Sending out Inexperienced Men Condemned by the Jury. HAMILTON, Sept. 11,-The inquest on the last night. Somewhere about midnight they they arrived at the following verdict:

That the deceased, Robert Shaw, came to his King & Son of Montreal, manufacturers of men inexperienced on this part of the road bein charge of the train, and exonerate them im blame. The jury think the G.T.R. is to me in not having distant signal semaphores each side of the bridge, in addition to the sent near signals. The jury also recommend the G.T.R. place such distant signals as an ditional protection to this part of the road, where the thermometers in the smoke the state of the smoke of the signal semaphores and the distant signals as an ditional protection to this part of the road, and the signal semaphores are signals. The jury also recommend than any other in the market. Yesterday after i Asking the Government's Approval of the in the sme

Something Unique in Wringers. The best exhibit in the way of washing machines and wringers is that made by Mr. H. T. LePage. It is located at the east side of the northern entrance to the Annex Building. The wringer is the Empire and it is where our manufacturing would be done.

We believe in making the very most of all our opportunities and no one will charge us with a tendency to believe and our opportunities and no one will charge us with a tendency to believe and our opportunities and no one will charge us with a tendency to believe and one will charge us big demand for it. It the Lower Provinces against the sample and it is receiving more attention than any other extends only been on the Canadian market about six months, but already there is a big demand for it. It the Lower Provinces run through by a child, and it will take a double blanket as easy as most others will an ordinary towel. Then again the journals are boiled in oil and consequently do not need oiling. There is also no possibility of the clothes getting rusted. A bench which will accommodate two tubs accompanies each wringer. The LePage washer, by which any ordinary washing can be done in which any ordinary washing can be done in one hour, is also shown. The same exhibitor shows the model door check and window

sash lock, ingenioas and useful devices. Stubborn Facts About the Daisy. Stubborn Facts are stubborn things. This was oncluded out midnight they ing verdict:

Shaw, came to his rlington Canal owing ras brakeing running of the paisy, have claimed that this beater gave and expert of the road beand experted to the consumed than any other in the market. Yesterday afternoink the G.T.R. is to not signal semaphores e, in addition to the jury also recommend distant signals as an spart of the road,

ES BAK.

Stubborn Facts About the Lossy.

This was been before him with the wagons of his early days. There are seven different styles in all, occupying more than all the tent. Coal awagons, the manufacture of the head to the consumed than any other in the market. Yesterday afternoon at 3.10 Mr. J. K. Fairbairn, mon at 3.10 Mr. J. K. Fairbairn, mon at signals san as part of the road, and the original standard Government wagons, first introduced by the swood fire in the heater without removing day. At the time the thermometers in the smokes pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers in the smoke pipe and on the radiators registered 70 each. In 10 minutes the thermometers i pipe and on the radiators registered 70 each. In 10 minutes the thermometers on the radiators had jumped up to 96, while the one in the smokestack had made scarcely any change. At the elapse of 30 minutes the heat in the radiators was shown to be rather better than 200 degrees, while the temperature in the radiators was only 120 thus demonstrated was not seen that the one of the control of t

The Ashbridge's Bay Committee waited on the Government yesterday afternoon to lay before it the scheme for reclaiming Ashbridge's Bay as approved of by the City Council, and further to ask the assent of the Government to these conditions.

The members of the Government present were Hon. C. F. Fraser, Hon. J. M. Gibson and Hon. A. S. Hardy. Mr. Fraser did the speaking. "We," he said, "have not yet had in the speaking. "We," he said, "have not yet had the speaking. "We," he said, "have not yet had the speaking. "Besserved fitting the screen of this satisfactory result is rapid circulation.

November. In April last he was induced to try Dr. Williams' Pink Pills, and after taking these for about six weeks he was completely restored. To satisfy any parties doubtful as to the truth of the miracle Mr. Marshall would be glad to give any information and answer all questions as to his recovery. He can be found every day from 9 a.m. to 6 p.m. at the main building, and from 7 to 9 p.m. at 529 Queen-street west.

It may here be remarked that Dr. William's Pink Pills are offered by the proprietors as a certain blood tonic and nerve builder for all diseases arising from an overtaxed or weakened condition of the errors system, or from an impoverlished or vitiated condition of the blood, such as the complaints peculiar to female weaknesses loss of appetite, inability to sleep, dizziness, pale and sallow complexions, loss of memory, that tired feeling which affects so many, and disease resulting from overwork, mental worry, abuse are loss of vital farors, and Mr. Mar.

resulting from overwork, mental worry, abuse or loss of vital forces, etc. Mr. Marshall is enthusiastic over the wonderful cure abuse of loss of vital forces, etc. Mr. Marshall is enthusiastic over the wonderful cure accomplished and very anxious to explain the workings of the effective remedy.

The Seal Concert.

The instrumental concerts given by Prof.

Weodward's performing sea liou and seal family delighted thousands of adults and

children. At times the juveniles were so children. At times the juveniles were so obstreperous in their eagerness to catch every motion of the clever animals that difficulty was found in keeping them from climbing on the platform. The sea lion beats the drum with ease of a drummer, while Mrs. Toby manipulates the strings of the banjo with her right flipper with the grace of an artist, and her husband as a tamborine player would put some Salvationists who thumb it to route. As a grand finale to each performance a feu de joie is fired by the seal family from rifes.

The Great Comedy is Coming.

"Dr. Bill" was first introduced at the Avenue Theatre, London, on Feb. 1, and had a run of over 300 nights. The story and incidents of "Dr. Bill" are builded upon the old lines of mistaken identity, and there are the adjuncts of various doors and dark rooms which have done generous service in old English farces from time immemorial. In the present instance the hero is a certain William Brown, M.D., who has been somewhat gay in his earlier life, but who has

The Charm of Heintzman's Pianos. Heintzman's piano exhibit was one of the main points of attraction yesterday. To the children who flocked there in the children who flocked there in numbers that discounted files in a sugar barrel, the fascination was the pretty little fans with kazoos attached to the handles. "Oh, mister, please mister, give me one, oh, won't you give me one." At times the pressure was so great that the attendants had to discontinue distributing cards and fans. Then above the discordant clatter of childish tongues would rise raptureus notes from the grand concert or parlor planos, as the case might be, and visitors hearing it all over the Main Building and out in the open air would ruminate:

Allured by its strains musicians and, in fact, all lovers of music would crowd around the railings, feast and still be hungry, and question the attendants about this and that feature of the Heintzman pianos and their prices. With these answered many of them would go away leaving orders be-aind them; others would carry away with them a determination to do so at a more

The Goddess of the Sea. L'Amphitrite, goddess of the sea, th Mystery, is more than worth the 10c. admission fee charged to what is one of the greatsion fee charged to what is one of the greatest attractions at the show. No one should miss seeing it. It'Amphitrite recognizes no law of gravity. At a word from the Professor the goddess, a beautiful woman with a model figure, suddenly appears in midair. Then while the spectators stand it openmouthed wonder she moves with graceful motions into horizontal and perpendicular positions without any support but the air, and as a grand finale dives amid the "oh, ohs" of the astonished onlookers into an imaginary seething sea.

aginary seething sea.

The Mercer Binder, An old friend is always welcome, and it is only natural that around the Mercer provements is a new knotter, the important feature of which is that it is composed of binder, Messrs, Mercer Bros & Co. of Alliston, are progressive men, and consequently are not satisfied with past conquests but are always pushing their machines into new fields. In the Antipodes Australia has acknowledged the superiority of the Mercer and now New Zealand is taking the machines it large numbers. Across the Atlantic from Great Britain have come so many enquiries that it has have come so many enquiries that it has been found necessary to send a representative to take charge of the trade there. In a word, the Mercer binder is gaining popularity in every quarter of the globe.

Berlin Piano Co. and Children's Day. A cloudless sky, a lovely day, beautiful lawns and flowers, and thousands upon thousands of children radiant and beautiful with their very happiness. Such was yesterand "took in" everything to be seen. Older heads and hands were their subjects and did their best to serve these little princes and princesses. At the stand of the Berlin Piano princesses. At the stand of the Berlin Plano Company they lingered, young and older alike, hour after hour, throngs upon throngs, and when crowded out of position by the pressure in their rear, only moved away to return again. Continued plano and organ recitals were given for them. The music of this corner seemed to fill and thrill the entire Main Building. To-day thousands of older heads will follow the example set by the children of yesterday and linger and listen with delight to the peculiar and wonderfully enchanting tones of the Berlin instruents. The success of the Berlin Co, at this

ments. The success of the Berlin Co, at this Fair is remarkable, their orders for pianos surpassing their highest expectations. Among others yesterday they sold to Mr. T. H. M. Hulse, a large dealer in musical instruments, of Kettleby, Oat., a car load of their instruments, and also a large order to Mr. Hill of Wyoming. Speight's Celebrated Wagons. The old farmer who gazes on the exhibit of the Speight Wagon Company in the large tent near the western entrance must be set Facts are stubborn things. This was ruminating when he contrasts what suminstrated to those who visited the Stove he sees before him with the wagons

Christie's Biscuits and the Children, Traffic id the vicinity of Christie, Brown & Co,'s exhibit on the ground floor of the northwest corner of the main building was congested all day yesterday. And it is never anything else on School Children's Day. The erality of the firm is about as fam

The Great Comedy is Coming.

cidents of "Dr. Bill" are builded upon the cold lines of mistaken identity, and there are the adjuncts of various doors and dark rooms which have done generous service in old English farces from time immemorial. In the present instance the hero is a certain William Brown, M.D., who has been somewhat gay in his earlier life, but who has married, settled down and relinquished his practice in order to dissociate himself from the lively theatrical companions of his youth. His father-in-law, however, determining that this shall be otherwise, puts a large brass sign on the front door, sends, out circulars and succeeds in having the doctor fairly overwhelmed with patients. Among them come some cf his old theatrical flames, who used to know him as "Dr. Bill" and thence all the confusion and complications. The second act, the scene of which is laid in the apartments of Mrs. Horton, an ex-actress, is very funny. "Dr. Bill" will be presented at the Grand Opera House every evening next week.

next week. The New York World says of this play "Pearl of Pekin" received an enthus "Pearl of Pekin" received an enthusiastic welcome at Niblo's last night. Edwin Chapman's eccentricities as Ty-foo are lengthable as ever, and his wonderful command of the Chinese tongue is convulsing. The "Bing Binger" song and "Very Near It," his latest topical song, were encored again and again. Bessie Brunson, who has succeeded Clara Lane in the title role, filled the part well. Her voice is clear and sweet, and her rendering of the solo in the first act was exquisite. The opera is richly costumed the dresses ing of the solo in the first act was exquisite. The opera is richly costumed, the dresses having been especially imported from China. Some of the stage groupings, as a result, are beautiful to the eye and were loudly applanded. The piece will be produced at the Academy of Music for one week, commencing Monday, Sept. 14, with Wednesday and Saturday matinees.

A Striking Pedestal of Soap, One of the most striking and novel exhibits is that of W. A. Bradshaw & Co. of nibits is that of W. A. Bradshaw & Co. of 48 to 50 Lombard-street, Toronto. It is on the ground floor of the Main Building, about midway between the fountain and the western entrance. The conception and execution reflect creditably on the artistic skill of the designers. The exhibit consists of a massive pedestal of soap, measuring 12 feet from base to apex. Surmounting it is an admirably executed Surmounting it is an admirably executed bust, in soap, of the late Sir John Macdonald. At the base are arranged samples of their usual manufactured bar of ammonia

INGENIOUS

SCHEME

Personal accidents are so numerous, varied and increasing that one of the most ingenious schemes to mitigate such calamities is accident insurance. It may not lessen the physical pain of such a mischance, but it wholly relieves the mind from the burden of the pecuniary consequence, and thus indirectly contributes to speedy recovery. In the pursuit of every occupation, whether business or pleasure, there is the peril of some calamity, and it is a duty we owe to ourselves and those associated with us to prepare against such casualties by the prudent step of accident insurance. The simplest, most liberal and comprehensive accident policy in the world is that of
