GUIDE-ADVOCATE, WATFORD, FRIDAY, AUGUST 5, 1921

ing Animals.

To every young man of worthy am-

bition there arises sooner or later a

desire which tends to lure him into

some occupation or profession con-

genial to his inclinations and offer-

ing an opportunity for advancement.

In this regard the Veterinary profes-

sion is worthy of consideration as a

suitable occupation and field of en-

deavor for the young man desirous

of improving his own status in life

and rendering useful service to the

community at large. In recognition

of this, the Ontario Department of

Agriculture maintains the Ontario

Veterinary College at Toronto for

the purpose of training young men

for the veterinary profession. It is

affiliated with the University of To-

ronto, and is one of the oldest and

best known colleges on the American

continent. It has received students

from all parts of the English-speak-

ing world, and its graduates are

favorably regarded, many of whom

have attained considerable promin-

ence. The College building is new

and modern throughout and well

equipped. The course is comprehen-

sive, and covers a period of four

years of seven months each term. The

tuition fees are exceedingly moder-

ate, averaging \$85 for each College

term. The purpose of the College is essentially that of a teaching insti-

tution for the proper training of men as Veterinarians. The prescribed course of study and instruction in

general practice as a veterinary sur-

geon. It trains the student for scien-

tific pursuits, to conduct research work, and to solve many of the live

stock problems occasioned by dis-eases with consequent national eco-nomic losses. It trains, the student for sanitary service work in prevent-

ing the transmission of animal dis eases to mankind through unwhole

some milk or from meats and meat

some milk or from meats and meat food products of doubtful origin. On graduation the opportunities are equal to that of any of the other learned professions, both monetary and in the wider sense of community service. There is an ever-increasing field for veterinary surgeons throughout the Dominion in rejuste

Health

Comes to you and the children if you have Dr. Pierce's Golden Medical Discovery in the house. For "little-ones" and "grown-ups" this old fashioned vegetable tonic and blood-maker is still wed by the million bettles even used by the million bottles every year. It was first used by every-body 50 years ago and is still safe and same because it contains no alcohol or narcotic. It is made up of Blood root, Oregon Grape root, Queen's root, Stone root, Cherry Bark, without alcohol. Make your blood redder and your health better by going to your nearest druggist and ob-taining Dr. Pierce's Golden Medical Discovery in tablet or liquid form

CENTRAL BUTTE, SASK.—" I have used Dr. Pierce's Golden Medical Discovery for a number of years, and am pleased to recommend it as a blood purifier. I know it has no equal, as I used it for my boy. My neighbors and friends were surprised with the results; in fact, I do not think he would be alive to-day had it not been for the 'Medical Discovery.' I also keep it on hand for coughs, as it differs so from other cough medicines; instead of upsetting the stomach, as most cough syrups do, it is good for the stomach. I only wish I had known about Dr. Pierce's medicines sooner. MES. PERCY WOOD.

Farmers and stockmen desiring to purchase purebred registered males and females, individually or in car lots, should communicate with the Secretary of the Lambton County in Bred Livestock Breeders' As-weighting.

Veteriary Science has much to com-mend it, and is particularly attrac-tive and interesting. It trains the student to acquire a thue knowledge of animal diseases, their treatment and prevention, thus fitting him for general practice as a veterinary surlip-to-date lists of the pure bred livestock for sale in the county kept on hand. Expert assistance will be given to all parties desiring to pur-chase herd sires. Parties desiring to List their animals should communi-cate with the Secretary. W. P. MACDONALD, Petrolia, Ont.

to ne. And sort condition of the horses, however, coupled with the iong days of hard work, causes them to shrink in flesh rapidly, and a col-lar that was a good fit at the begin-ning of the season may be entirely unsatisfactory three or four weeks later. In some cases the collar can be made to fit by using a sweat pad, while in others a new or different collar will be required. It is better, however, to have collars that fit than ABOUT VETERINARIANS flow to Become Skilled in Doctor-

Profession That Should Appeal to Farm Lads - What the Ontario Veterinary College Can Do for however, to have collars that fit than to use sweat pads. A poorly fitting collar not only rtarts sores but also causes the horse Ambitious Student - Does the (Contributed by Ontario Department of Agriculture, Toronto.)

to fret, thus greatly reducing his efficiency. A work horse wearing a properly fitting cullar is about twothirds harnessed. FAIRS ADVERTISE YOU

good grain for seed, to the specialist in garden and truck crops, and particularly to the live stock man, the Fall Fair offers an opportunity. It pays to advertise; the Fair is the place where the people see the goods produced, and seeing is believing. Moreover, the papers report the winnings, and through these the exhibition gets a large amount of advertising free which would otherwise cost him a considerable amount of money. Winning in close competi tions under a competent judge adds dollars to the value of stock shown and increases the market price of any commodity, as well as giving the exhibitor a standing not only in his own community but over a section of country corresponding to the size and influence of the show at which prizes are won. The Fair is a good place to make sales. Prospective buyers see the good exhibits made and en-quire about the breeding stock at home. Stockmen show at Fairs largely to make sales rather than to win prizes; although the latter is a factor in the sales and they are not disappointed as exidenced by the growing interest in the Fall Fair. Showing at the Fair, coupled with a, indicious newspace advantions not judicious newspaper advertising pol-icy, which should never be neglected, is good business. The two go together and work hand in hand. It pays to let others know of your good stock, Use printers' ink and show at the Fall Fair.—Wade Toole, O. A. College, Guelph.
