- 

The series has this peculiarity, that all of its constituent volumes are independent of one another, and therefore each story is complete in itself. "Oliver Optic" is perhaps the favorite author of the boys and girls of this country, and he seems destined to enjoy an endless popularity. He deserves his success, for he makes very interesting stories, and inculcates none but the best sentiments; and the "Yacht Club" no exception to this rule. — *New Haven Jour. and Courier*.
