

rate of eight tons per acre were used. The result thus far is that the corn of 1897 gave an increase of thirteen bushels per acre for the yard manure against sixteen bushels from the stall manure, and the wheat crop following has given an increase of ten bushels per acre for the yard manure against eleven bushels from the stall manure. Valuing the corn at thirty-three cents, and the wheat at eighty cents per bushel, and the straw and stover at \$3 per ton, the increase from the yard manure in the two crops has amounted to \$15 per acre, and from the stall manure to \$17, an average of \$2 per ton for the stall manure, with further effect probable on succeeding crops.

#### REMOVING WOOL FROM SHEEP SKINS.

Having got the skins in the yard, they are first beaten on a wooden block with a mallet to bruise the congealed blood on the necks; they are then thrown into water to rinse the dirt and blood from the wool, and are then hung over trestles for the water to drain out. The skins are next lime-washed on the flesh side and folded down the back so as to make the bellies match together. They are then left for an hour or two so that the lime will set a bit. They are then hung by the thick part of the back of the head upon tenter hooks in large dark, closed sheds or rooms, and in about two days in the summer the wool will come off quite easily. The sheds have to be heated in the winter.

#### OUR CLUBBING LIST

We will send FARMING UNTIL THE END OF 1899 together with any of the papers in the following list for one year at these remarkably low rates:

	Regular Price	With FARMING
Canadian Magazine.....	\$2 50	\$2 50

## CURES CATTLE

For cattle coughs, sore throat, sprains, sore or caked bag and a score of accidents that might befall the herd, Griffith's Menthol Liniment is the greatest of external applications—proved the success that is claimed for it a thousand times—good in an emergency—quick to cure.

"We have used Griffith's Menthol Liniment with great satisfaction and success on our ranches, and believe that for horses and cattle there is nothing to equal it." P. R. Ritchie & Co., ranchers, Vancouver, B.C.

### Griffith's VETERINARY MENTHOL LINIMENT

Relieves the instant applied  
At all Druggists—75 Cents

## HORSE HURTS

As an effective healer for sprains, curbs, galls, splints, sore throat, coughs, swelling, soreness or inflammation in horses and cattle, Griffith's Liniment has proved a supreme success—as good for the horse as for his master. P. H. Ritchie & Co., ranchers in Vancouver, B.C., say: "We consider Griffith's Menthol Liniment unequalled for horses. One of ours had a bad swelling on the left leg, which was swollen to an immense size. We applied the liniment, and in two days the swelling had left him. We have tried many liniments but have found nothing to equal it."

## Extract from Annual Report for 1897

of the Consulting Chemist of the ROYAL AGRICULTURAL SOCIETY OF ENGLAND, published in their Journal, 31st December, 1897, page 732:

"It has been necessary to call attention to the fact that under the name of slag, and sometimes even under that of 'basic slag,' have been sold refuse materials of a very different character, and having little or no manurial value. These have not been the product of the now well-known 'Basic' or THOMAS process of iron or steel-making, and have contained little or no phosphoric acid such as basic phosphate has. In several instances the purchasers believed that they were buying the true basic slag. It behoves one, therefore, to be careful to stipulate for THOMAS-PHOSPHATE, and to have a guarantee of phosphoric acid contained, and of fineness of division."

We handle the only true . . . . .

## Thomas-Phosphate Powder

sold in Canada; and to be sure of genuine material, see that the bags have our name and address.
