

The Life of Jesus **TRAVEL LESSONS**

By WILLIAM BYRON FORBUSH, Ph. D., Author of
"The Boy Problem" and "The Boy's Life of Jesus."

Accompanied by Stereographed Relief Map prepared by the Palestine
Exploration Society.

This is a most unique method of teaching the Life of Jesus, using as
a text the stereographed places in Palestine where Jesus lived and taught.

Every Teacher Should Have One

It accompanies the International Lessons for 1906 or can be used
independently. Send post card at once for Dr. Forbush's free descrip-
tive pamphlet.

University of Toronto

FACULTY OF MEDICINE

THE regular course of instruction consists of Four Sessions, of eight months each, commencing October 2nd.
There is a distinct and separate course for each of the four years.

The degrees conferred by the University of Toronto in Medicine are Bachelor of Medicine (M.B.), and
Doctor of Medicine (M.D.). Students may take a combined course in Arts and Medicine if they wish to do so.
Arts students who are taking the Honor course in Natural Science are able to fulfil the requirements of the
primary work in medicine during their final years in Arts, and thus it is possible to obtain the degrees of B.A.
and M.B. upon six years' University training.

Attention is directed to the efficient equipment of the University laboratories for instruction in the
practical subjects of the Medical curriculum. The new building of the Medical Faculty has been completed
at a cost of \$175,000.00, in the Queen's Park, and affords extensive laboratory accommodation for Pathology
and Physiology which is unsurpassed. The lectures in the final subjects are also delivered in the new lecture
theatres. Instruction in the other subjects of the medical course are taught in the various science laboratories
and lecture rooms of the University.

To meet the requirements of the Ontario Medical Council, a course of instruction is conducted during
a Fifth year. This is entirely optional as far as the University of Toronto is concerned.

Clinical teaching is given in the Toronto General Hospital, Burnside Lying-in Hospital, St. Michael's
Hospital, Hospital for Sick Children, and other medical charities of Toronto.

There are special research scholarships offered to graduates in Medicine, and every opportunity is now
offered for scientific research work in any of the various laboratories of the University, under the direct super-
vision of the Professor in charge.

The Faculty provide four medals for the graduating class (one gold and three silver). There are also
scholarships available for undergraduates in the First and Second years; these are awarded to the candidates
on the results of the annual examinations.

Further information regarding scholarships, medals, etc., may be obtained from the Calendar, or on
application to the Secretary.
