G. M. PIERCE,

Rockwood House, Kingston.

The habits of the Golden Plover
are being investigated in Ontario
just now, and we have been asked
to get the dates of their arrival in
Kingston. Who can give the in-
formation? We have also been
asked to find out if the Bohemian
Chatterers (very much like the Wax
Wing or Cedar Bird), have been
seen in Kingston this winter. If so
they would in all probability be
found in the red cedars and juni-
pers beyond Barrifield.

Several dogs from the Rockwood
Kennels have departed for foreign
climes, and their place has been
taken by a very fine specimen of
the St. Bernard family, from Mount
Royal Kennels. The cruel hearted
say that the departure of the can-
ines was precipitated by the proba-
ble appearance of the assessors.
