MIRIMACHI STONE
FRENCH PORT QUARRY

JOHN LAURIE, Sole Agent, 162 St. James St., MONTREAL.
Used in some of the finest buildings in Canada. Stands the climate;
improves with age; does not absorb moisture.

CHIEF ARCHITECT'S OFFICE, OTTAWA, August 1st, 1893.

FRENCH PORT SANDSTONE.

DEAR SIR,—The new Departmental Building in this city has been built of this stone—upwards
of 12,000 cubic feet having been used.

Having inspected the quarries, I am able to state that it is almost unlimited in extent, and blocks
of almost any size can readily be obtained; it is of a most pleasing colour, which seems to improve
with age; very easily wrought; and in that respect alone has the advantage of most of the sand-stones
at present in use. The stone was wrought and placed in this building quite green from the quarry;
and notwithstanding that the variations in temperature during the past severe winters have been from
20° to 40° in twenty four hours, it has not been in any way impaired.

O. E. Flah, Esq., I am, Dear Sir, yours truly,
Newcastle, N. B. THOS. FULLER, Chief Architect.
